

## MAINONE to Leverage on NgREN to Improve Internet Access in Varsities

A delegation from MAINONE International, led by the Chief Executive Officer, Mrs. Funke Opeke, on Wednesday, 4 May, 2016, paid a courtesy visit to the Executive Secretary, National Universities Commission (NUC), Professor Julius A. Okojie, OON, to seek for ways to leverage on the Nigerian Research and Education Network (NgREN) to improve on the internet services of its clients in the universities.

Receiving the delegation, Professor Okojie, who was represented by the Deputy Executive Secretary (DES) I, Professor Chiedu Mafiana, briefed it on the roles, functions and responsibilities of the NUC in the Nigerian University System (NUS). He stated that the major challenges confronting the system were access and quality, but that the Commission was

Network (NgREN), observing that the journey of the REN dated back to the year 1995 when it was first mooted, but was later realised with the launch, in July 2014. He stated that the NgREN provided a platform whereby all universities that subscribed to the Network had the opportunity to share information seamlessly, with other added services at a very cheap rate. He added that NgREN was a non-profit project, which is domiciled in the NUC for the benefit of universities and other research institutes and run in partnership with Airtel, EBSCOhost, among others.

In his contribution, NUC's Deputy Director, ICT Projects, Dr. Joshua Atah, said that at the moment, services at the NgREN were skeletal due to lack of funds to sustain the Network, adding that the REN, with adequate funding, would secure more services in quantum. He acknowledged the efforts of MAINONE in providing services to some universities, stating that it could partner with the NUC by bringing on board those

institutions that it was servicing in order to enjoy the free services available in the REN. He specifically observed that there was the need to dedicate a special router for these purposes. He, therefore, urged the delegation to study the models upon which RENs were developed and run globally, before their next visit, in order to forge a beneficial partnership at the end.

In her remarks, Mrs. Opeke

disclosed that the outfit was concerned with providing access to Information and Communication Technology (ICT) facilities in the education sector and had been offering internet services to some universities in the country. She noted that, having successfully deployed similar ICT facilities in the universities, the company needed to further explore the opportunities available in the NgREN, so as to offer the REN's web contents to existing clients and other potential customers. She added that MAINONE International was interested in bridging technology gaps in Nigeria; by improving quality and standards of internet services offered in the education sector, with the realisation that internet was a useful tool for global development.

In the MAINONE International's team were the Regional Head, Business Sector, Mr. Gimba Mohammed and Sales Manager, Mr. Valetine Okoh.

# Prof. Okojie Becomes 'Garkuwan Matasan Arewa'

Deputy Executive Secretary, II, Mal Ibrahim Dan'Iya, receiving the Award presented to the Executive Secretary, Prof. Julius A. Okojie, from the Speaker, Arewa Consultative Youth Assembly, Rt. Hon. Dogo Shagari

The Executive Secretary, National Universities Commission (NUC), Professor Julius A. Okojie, OON, has been honoured with the Traditional title of *Garkuwan Matasan Arewa*, which means 'Protector of the interest of the Northern Youth' by the Arewa Consultative Youth Assembly. The Award, which was received by the Deputy Executive Secretary, DES II, Mal. Ibrahim Dan'Iya, on behalf of the Executive Secretary was in recognition of his administrative style and leadership qualities characterised by absolute commitment, integrity, philanthropy and professionalism.

In his remarks, the Speaker of the Youth Assembly, Rt. Hon. Dogo Shagari, described Professor Okojie as a man of great repute and foremost icon of societal hope as well as a social transformer, who has continued to be a role model for the current leadership and younger generation. "We have followed your antecedents and you have demonstrated a selfless leadership style, which represented a true definition of efficiency, effectiveness, integrity and dynamism," he said.

Rt. Hon. Shagari stated that, the Assembly had, as part of its objectives, the enthronement of a better, just and fair society, by

recognising and propagating the personality of individuals, who have distinguished themselves in their chosen careers and honour them accordingly. He stressed that such individuals were those that had made positive marks in their careers and had contributed positively to societal advancement through quality and selfless services, society focused leadership, respect for humanity, integrity and humility. According to him, the Executive Secretary is an embodiment of these qualities with the way he distinguished himself in the areas of purposeful leadership, people-oriented programmes, unparalleled philanthropy, mentoring, and

Mal. Dan'Iya delivering the Executive Secretary's remarks

unquenchable thirst for quality and standards in the tertiary education sub-sector.

The Speaker further said that Professor Okojie's laudable achievements summarised in his love for excellence had positioned him as the Pride of the Nigerian youth and the entire youth of Africa. He told the Executive Secretary that the honour was the Arewa Youth Assembly's little way of encouraging him to do more for the advancement of the society. He stated that the body shared many things in common with the awardee, as ambassadors of change, evangelists of hope and beacons of a new Nigeria.

Hon. Shagari expressed hope that Professor Okojie would continue to soar higher in positions of responsibility so that they could gather again to celebrate him. He also informed the NUC Scribe that the Assembly shared a common vision of social, cultural and regional unity of the country, with the aim of creating a synergy among the youth and the entire people of the nation, through active participation in youth-based activities. In line with this vision, he said, its Committee on

Internally Displaced Persons (IDPs) had provided relief materials to four IDP camps in the North Eastern part of Nigeria, and also visited the people of Agatu in Benue State, with similar relief materials.

The Speaker disclosed that these efforts had been made possible by the generous financial donations and material contributions of good-spirited individuals and organisations in the country. He, therefore, appealed to the Executive Secretary to assist the body to enable it continue with the humanitarian gesture, which is a good cause that himself loves to pursue.

Lending his voice, the Assembly's Director of Communication Michael Unachi, noted that the awardee would not have succeeded in his endeavours without the support of the NUC Management team. He stressed that posterity would remember him and the entire Commission's staff for their commitment to the development of the nation's university education.

Responding to the award, Mal. Dan'Iya expressed gratitude to the Assembly for finding Professor Okojie worthy to be conferred with such a distinguished title reserved for men of outstanding achievements. He apologised that the Executive Secretary was unavoidably absent at the ceremony but sent his best wishes and appreciation of the honour done to him.

The Deputy Executive Secretary particularly commended the body for the initiative of promoting national integration in its programmes and activities, describing it as a worthwhile venture, which was in tune with

Rt. Hon. Shagari delivering his speech

the Federal Government's policies enunciated in the Federal Character Principles and enshrined in the NUC, JAMB and NYSC scheme. He assured the body that he would convey to the Executive Secretary their gestures

and request for support towards the good cause of alleviating the suffering of IDPs, in due course.

Others in the delegation were the Deputy Speaker, Hon. Mohammed Abubakar; Coordinators of,

Zamfara State and FCT Chapters, Hon. Aminu Bello and Musa Suleiman; Members from Kebbi State, Hon. Salihu Yusuf, Abuja, FCT, Usman Taxy and Kaduna State, Hon. Zainab Sule, respectively.

# Prof. Otunta is new Vice-Chancellor, MOUA, Umudike

Prof. Francis Ogbonnaya Otunta and Chiedu F. Mafiana during the visit of the new Vice-Chancellor MOUA, Umudike, to the Commission

**T**he Governing Council of the Michael Okpara University of Agriculture (MOUA), Umudike, has approved the appointment of Professor Francis Ogbonnaya Otunta, as the 5<sup>th</sup> Vice-Chancellor of the University. He succeeded Professor Hillary Edoga, whose five year tenure expired, with effect from 1<sup>st</sup> March, 2016.

A Professor of Mathematics from the University of Benin (UNIBEN), he was until his new appointment former Chairman of UNIBEN Endowment and Development Fund; Research and Publications; Head of Department, Mathematics; Vice-Chairman, Academic Staff Union of Universities (ASUU) and Rector, Akanu Ibiam Federal Polytechnic, Uwana, Afikpo, Ebonyi State, between 2006-2014. Born on 29 April, 1958, in Afikpo, Afikpo North Local

Government Area of Ebonyi State, the Vice-Chancellor started his teaching career as a graduate Assistant in UNIBEN on 1<sup>st</sup> August, 1983 and rose through the ranks to become a Professor on 1st October, 2003.

In a chat with the *Monday Bulletin* team, Professor Otunta said that his vision in the next five years was to lead the University to become 21<sup>st</sup> Century compliant in all spheres of its endeavours, with focus on being an Information Communication Technology (ICT) based and driven Institution that meets the demands of the present day realities. He said, "I have done it before and will do it again." I was the Rector of Akanu Ibiam Federal Polytechnic, Uwana, for eight years and was able to make a difference."

My vision is to drive MOUAU to become, not just a First Class

University in Africa, but the world. The face of the University of Agriculture will be felt by the teaching and non-teaching staff as well as the students. There was one thing I discovered as a researcher. None of our earlier research in Umudike commanded attention in the world, where these products were taken to such as the University of Leeds, in the UK and the University of Minnesota, USA, he said".

The conduct and outcomes of research he said, would be visible and properly channeled to the markets, where they would be useful. In his words, "I have the advantage of starting on a platform that is already at a certain height. UNIBEN is a much older and conventional university, with all kinds of programmes and seasoned academics compared to a specialised and younger University like MOUAU, both in terms of faculty and programmes.

He expressed his determination to bring his experience to bear in the running of the university. He said that his team was prepared to carry every member of the university community along to ensure that due process is followed in the conduct of their affairs.

### PRESS RELEASE

## Medicine, Dentistry Programmes to Run for Seven, Not 11 Years

The new Benchmark Minimum Academic Standard (BMAS) for Medicine and Dentistry, which has since been made public by the National Universities Commission (NUC), provides for a seven-year training, leading to the award of MBBS/MDS and not the 11 years being erroneously circulated in the mass media.

Although the so called '11-year Medical Programme' stories have been credited to the Commission's Executive Secretary, Professor Julius A. Okojie's keynote address titled, 'Development of Medical Education in Nigeria: Prospects and Challenges', which was delivered at the Matriculation and Inauguration of the University of Medical Sciences, Ondo, on Saturday, March 12, 2016, nowhere in that lecture was 11 years mentioned or implied.

Prof. Okojie, who was represented by the Deputy Executive Secretary 1, Professor Chiedu Mafiana, had explained that the new curriculum provides for a seamless seven-year programme. With the new curriculum, a Medical student would be expected to graduate in Basic Medical Sciences, with options in Anatomy, Medical Biochemistry and Physiology in the first four years, before proceeding for the clinical training that would run for three years.

Prof. Okojie had further explained that the reviewed BMAS went through a long process, which included wide consultations with the academia, professional associations and regulatory body, following the conduct of a Market Needs Assessment. According to him, the consensus was that medical training should be post-graduate. The main goal is to ensure that the crop of graduates emerging from the programme are psychologically matured to practice, with a high level of competency.

The new BMAS for medical education still retains the fundamental learning objectives of the six-year programme: the national development goals for health, while retaining the international outlook to guarantee global competitiveness. While noting that the extant six-year programme shall continue to subsist for a period to be determined, Prof. Okojie observed that attempts had been made over the years to run Medical programme using course credit system and that the hallmark of the new document is that it clearly apportions credit weightings to all the courses and activities.

“In line with global practice and to ensure that knowledge and skills are effectively imparted”, Okojie said, “modern course delivery systems have been prescribed. Among core teaching facilities and modes of learning recommended are:

### ***Clinical Skills Laboratory.***

The use of the facility would represent a shift in the current mode of medical training to problem-based solving approach and the application of modern techniques which involves use of Mannikins and simulation materials. Clinical Skills Laboratory provides a learning platform in clinical, and information technology skills to certain level of competence before direct exposure to patients, which afford the learner and teacher advanced knowledge in a seemingly practical environment. The facility can also serve as a multi professional/inter professional interactive forum for communication skills development. The simulated patients also provide the learner a safe art of clerkship before direct contact with the real patient thus providing

a learning method that efficiently fills the gap between theoretical knowledge and clinical practice.

### ***Classroom Equipment***

Adoption of modern delivery method using ICT has become inevitable. Classrooms should be equipped with smart boards, document scanners and biometric scanners for lecture attendance.

### ***E-learning materials and Research Information Platforms***

E-learning materials accelerate understanding of courses taught and have become a veritable tool for learning. Research, generally, are meant to address social issues as well as deepening the knowledge and advancement in the field of studies. Information on the developments and applications in the field of study should be readily available.”

On the above, Prof. Okojie said, “The availability of Nigerian Research and Education Network (NgREN) has made access to teaching (such as Telemedicine) and research information readily accessible, and all Nigerian universities should key into it.”

Since the first erroneous publication of '11 years for Medical Programmes', NUC has sought to correct this misconception by widely circulating the Keynote Address and a Press Release on the matter. The Executive Secretary also took time to correct the misconception by speaking, extensively, on the matter at the recent recognition ceremony of the Edo University, Iyamho, held at the NUC Secretariat, Abuja.

### RE: ACADEMY OF SCIENCE ACCUSES NUC OF TAKING BRIBES

The attention of the National Universities Commission (NUC) has been drawn to the publication in the Punch Newspaper of Tuesday, 1 March, 2016 titled “Academy of Science accuses NUC of taking bribes”.

The Commission decided to address this issue via this medium because the publication is already in the public domain which makes it imperative to clear the air on some of the issues raised, by no less a person than a professor who is the President of the Nigerian Academy of Science (NAS) and a one-time Vice-Chancellor, who had hosted several Accreditation Panels and ought to know better.

It is important to state that Professor Oyewale Tomori, while delivering the Convocation lecture at the University of Abuja attempted to bring to disrepute the National Universities Commission and its accreditation system. It is pertinent to state that a good number of the accreditation assessors of programmes in the Science discipline in Nigerian Universities on which, he is casting aspersions, are members or potential members of the Academy.

For the avoidance of doubt, the NUC has a track record of Quality Assurance that stands out nationally and internationally. The Commission, from time to time, has been commended by different bodies on its accreditation procedure and overall Quality Assurance function. The NUC accreditation system has been understudied and replicated by other similar Quality Assurance agencies on the continent; and the Commission has also been invited at different times to facilitate the establishment of Quality Assurance agencies in countries without one. Currently, the Commission chairs the African Quality Assurance Network.

The Commission takes exception to the accusation of the NAS President that NUC officials collect brown envelopes during accreditation exercises. Even though the NAS President was quoted in the publication as having said that NUC alludes to the fact that those who give and take the envelopes are Professors, and that the NUC forgets that the results bear “NUC's accreditation”, the fact still remains that accreditation is a peer-review exercise amongst academics all over the world. The Professor should therefore be bold enough to address the issue, if any, with his professional colleagues rather than point accusing fingers at the Commission.

In order to ensure the integrity of NUC accreditation exercise, there exists a widely publicised Code of Conduct guiding the conduct of Accreditation Exercise among the Panel members which expressly directs Universities not to have any financial dealing with assessors as their DTA, return transportation and honorarium for job done are taken care of by NUC. All panel members are also required to declare the existence of conflict of interest before being assigned the task. It is not clear to us whether Prof Tomori was involved in giving or taking the “brown envelop” as a Professor and a former Vice-Chancellor which he had never brought to the attention of the Commission.

On the issue of curriculum, it is pertinent to note that the Commission consistently engages in the review of its BMAS to meet National Developmental Objectives and International Best Practices. If Professor Tomori is current on issues of curriculum, he ought to know that the most recent review was in the year 2015 which was based on Labour Market Expectation of Nigerian Graduates and is on the NUC website.

It is curious that the Professor accused NUC of doing government's bidding. It is on record that whereas NUC is a statutory agency of the Federal Government of Nigeria, there has never been any form of interference from any quarter with regard to the outcome of the Commission's accreditation exercise from 1990 to date.

As the president of NAS, Prof. Tomori is in a position to constructively engage with the Commission towards the overall improvement of university education especially in the Sciences.

The National Universities Commission will continue to promote quality delivery of university education in Nigeria. This is our mandate, and the Commission remains willing to collaborate with well-meaning Nigerians and others to achieve it.

### ADVERTORIAL

### CONFIRMATION OF APPROVAL OF THE NIGERIAN UNIVERSITIES e-LEARNING PROGRAMME

The general public is hereby informed that whereas the Commission maintains its stand that online degrees are not accepted in Nigeria at the moment, this does not include the approved Nigerian Universities e-Learning Programme run within the shores of Nigeria.

The Nigerian Universities e-Learning Programme is a legitimate and well thought out pilot e-learning initiative. It is a Public Private Partnership between the National Universities Commission (NUC), Park Associates E-Learning Group, and four federal universities. Its goal is to provide new opportunities for students to access university education in Nigeria.

#### The four Participating Universities are:

- i. University of Uyo;
- ii. National Open University of Nigeria;
- iii. Usmanu Danfodiyo University, Sokoto; and
- iv. University of Maiduguri.

Students enrolled in the Programme can select any of the following undergraduate degree programmes: Economics, Banking & Finance, Accounting, Business Administration and Marketing for which they have requisite qualifications. The Programme for now is only available for candidates who wish to obtain BSc Degree in Economics.

The Commission wishes to use this medium to allay all fears and doubts concerning the legitimacy or NUC endorsement of the Nigerian Universities e-Learning Programme. This is one of the avenues that the National Universities Commission is exploring to increase access to university education without compromising quality. Students in the Programme are therefore advised to continue to pursue their studies without fear and prospective applicants are encouraged to enrol. Concerned parents, guardians, students and the general public may contact the Commission for further clarification on the Programme under reference.

## IMPLEMENTING STEPS FOR NEW MEDICAL SCHOOLS, ACCREDITATION ISSUES AND THE NEW MINIMUM BENCHMARK (2015) FOR THE MBBS/BDS PROGRAMMES

### PROGRAMMES

Following several Stakeholders' meetings in the last two years and as a prelude to the formal release of the New Minimum Academic Benchmark (2015), proprietors of Medical and Dental Schools in Nigeria (both current and prospective) are requested to note the following implementing steps including relevant adjustments relating to accreditation of Medical/Dental Schools.

1. From 1st September 2015, both current and prospective proprietors of Medical and Dental Schools should:
  - a. Write a letter to the Executive Secretary stating their intent and provide relevant information as available.
  - b. On receipt, (if NUC has no obvious reasons to disqualify the application), they would be sent a copy of the BMAS for MBBS/BDS and advised firmly to ensure that they are strictly complied with.
  - c. The setting up of medical schools is not an emergency exercise. To this end, prospective proprietors must own and have in place (prior to a request for a Resource Verification), a fully functional and well run tertiary type hospital. In the circumstance of the above not being in place, consideration for an affiliation with a tertiary government-owned institution may be given only when the said university owns a medical institution fully functional with a minimum of 150 beds and a rural health medical unit. (See Appendix 4 of the BMAS).
  - d. A Pre-clinical Accreditation would be expected to take place within two years of a positive Resource Verification. Students can only sit for the second MBBS professional examination (Anatomy, Physiology and Biochemistry) when they have a successful preclinical accreditation. The preclinical accreditation would, amongst others, concentrate largely on the Department of Anatomy, Biochemistry, Physiology, Pathology and Pharmacology and to a lesser extent, Community Health. All evaluated departments must have the minimum requirements in terms of academic staff, non academic staff and laboratory facilities. (See Appendix 3 of the BMAS)
  - e. The Commission has now approved a Clinical Accreditation expected to take place within twelve months of a successful preclinical accreditation. Subsequent to that, a reaccreditation exercise will take place every five years.
2. With respect to established medical schools, (and irrespective of their accreditation status), it should be noted that only institutions that (by the deadline of March 20th, 2016) have requested and obtained formal approval from the National Universities Commission for a re-evaluation based on the following considerations would be allowed to admit students into the MBBS/BDS programmes from the 2016/2017 academic year:
  - a. All Medical and Dental schools must have an approved, and appropriately utilized, Clinical Skills/Simulation centre.
  - b. Ensure strict adherence to the proper use of the course system for all approved programmes in Nigerian Universities. The implication of the above is that a particular programme (subject) is taught not only broken into cluster units of 1-4 but also have the components of university supervised examinations. For clarity, current end of posting examinations (practiced by some medical/dental schools) that neither have units allocated nor follow the standards of a University examination, do not conform to the Minimum Academic Standards as established by the National Universities Commission.
  - c. Universities are strongly urged to immediately review their current methods of teaching medical and dental students to include more tutorials, self study group teaching, use of IT in the delivery of courses and simulation/competency based evaluations that must be signed by a lecturer not below the status of a senior lecturer. It must be noted that the confirmation of a successful simulation/competency based evaluation should be a mandatory requirement before the students are eligible to sit for the various professional/sessional examinations

3. Proprietors are urged to note the Essential Component changes of the new curriculum expected to be in use from the 2016/2017 academic session. Details of these changes are available in the New Minimum Academic standards booklet and at the National Universities Commission website. ([www.nuc.edu.ng](http://www.nuc.edu.ng).) Major components include the following:
  - (a) The approval of three alternative models viz;
    - i. A seven year MBBS/BDS programme that encompass a mandatory seamless four-year acquisition of the B.Sc. (Basic Medical Science) with interest in either Anatomy/Physiology/Biochemistry. At the end of seven years, students would have acquired the Bachelor of Basic Medical Science, Bachelor of Medicine and Bachelor of Surgery degrees. In case of the dental programmes, the students would have acquired a degree in Basic Dental Science and Bachelor of Dental Surgery.
    - ii. In order to allow for career change for interested non-medical health professionals, the Commission has also approved a four year programme leading to MBBS/BDS for interested and qualified graduates of Nursing, Pharmacology, Physiotherapy, Image Science, Paramedics, Anatomy, Physiology, Biochemistry and Pharmacology. It must be noted for such to be considered for admission they must have at the WAEC/NECO levels minimum credit scores in Mathematics, English, Physics, Chemistry and Biology at one sitting, prior to the admissions for their first degrees. They must also have a good CGPA.
    - iii. Admission into universities based on the current six year programme would be allowed to continue as suitable alternative based on the discretion of the University.
    - iv. It should be noted and emphasized that all the above degrees have the Bachelor appellation as they remain undergraduate programmes.
  - (b) Specific periods of posting to the department of Family Medicine. The obvious implication here is that, the Universities should create the Department of Family Medicine following their due process.
  - (c) Redesignation of the Department of Pharmacology to the Department of Pharmacology and Therapeutics. The department is now expected to provide relevant basic clinical teaching and conduct relevant professional examination in Pharmacology. They will also be expected to provide relevant clinical teaching in Therapeutics. All Universities should set in motion the machinery to achieve the above.
4. In view of the above essential component changes of the new curriculum, the Commission will be organising a National training for Medical teachers in Nigerian Universities. Details of the training would be made available shortly.
5. Interested stakeholders are invited to send comments/suggestions on the above to: The Executive Secretary, NUC, [okojie\\_julius@yahoo.com](mailto:okojie_julius@yahoo.com) and copy to [chiedu.mafiana@gmail.com](mailto:chiedu.mafiana@gmail.com)

## NATIONAL UNIVERSITIES COMMISSION

### RE: MORATORIUM ON PART-TIME PROGRAMMES

The National Universities Commission, cognizant of the need to streamline the operations of Part Time and Sandwich programmes in Nigerian universities, had through a publication in the print media, including the Guardian and Sun Newspapers of Monday, 19th March, 2012, placed a moratorium on admission into parttime programmes in Nigerian universities. In the publication, the universities were requested to fully disclose all Part-Time and Sandwich programmes, with respect to enrolment and staffing profile, within four weeks of the publication, and to conduct in-house staff and student audit and forward same to the Commission. As a follow up to this, the Commission vide a letter dated 14 January, 2013, sent a reminder to the universities requesting those that were yet to provide information on their Part-Time and Sandwich programmes as well as affiliation arrangements to do so on or before 15 February, 2013.

## GUIDELINES ON PART-TIME AND SANDWICH PROGRAMMES IN NIGERIAN UNIVERSITIES

Below are guidelines for conducting Part-time and Sandwich programmes in Nigerian universities. All universities currently operating Part-time programmes are expected to comply with the guidelines on programme by programme basis.

Consequently, universities still interested in running Part-time programmes are advised to forward fresh applications to the NUC on programme by programme basis.

This is, however, subject to the readiness of the university to comply with the following extant guidelines on part-time programmes:

1. The admission and graduation requirements, Staffing, Library and physical facilities requirements must be in line with the Benchmark Minimum Academic Standards (BMAS) for the various full-time academic programmes;
2. For a programme to be eligible to run on part-time basis, the approved full-time equivalent must be available in the university, must have earned full accreditation and must be run within approved campuses;
3. The enrolment into part-time programmes must not exceed 20% of total students' population in the programme;
4. The minimum duration of the part-time programmes must be 150% of the approved duration of the Full-Time equivalent;
5. Approval shall not be granted for part-time programmes in Environmental Sciences, Engineering/Technology, Law, Medicine/Medical Sciences, Pharmacy /Pharmaceutical Sciences, Dentistry; and Veterinary Science;
6. All admissions into part-time programmes must be through the Joint Admissions and Matriculation Board (JAMB). Part-time programmes must be run within approved campuses of universities where the human and material resources for the teaching of the programmes are domiciled, i.e. on the main campus of the university;
7. Part-time programmes shall be subjected to the NUC accreditation assessment upon maturity of the programme;
8. For any programme to be eligible for part-time mode, it must have produced two (2) sets of graduates and satisfied the Resource Verification Requirements.
9. Commencement of a part-time programme MUST be subject to NUC's approval. Approval of commencement of all parttime programmes must be obtained.

The National Universities Commission shall not hesitate to apply appropriate sanctions on any university which violates any of the stipulated Guidelines on Part-Time and Sandwich Programmes.

## List of Universities with Approved Postgraduate Programmes

The National Universities Commission (NUC) has observed with great concern that some Nigerian universities are running unapproved postgraduate programmes, leading to the award of Masters and PhD degrees. The Commission has also observed that some Parastatals and Institutes are awarding these same Postgraduate degrees, either on their own or through unapproved affiliations with Nigerian and foreign Universities. Such practices are not only unethical, but also antithetical to time-tested quality assurance best practices. The qualifications/awards resulting therefrom are not recognized. The Commission hereby notifies the general public that only the following universities have approval to offer postgraduate programmes at the Masters' and Ph.D levels in Nigeria, as of 30th July, 2012:

### Federal Universities :
