

## ES Receives Presidential Aide on Youth, Students Affairs

### ... Advocates Mentoring for Students

Executive Secretary, NUC, Prof. Julius A. Okojie, making his remarks during the visit of the Presidential Aide, Mallam Nasir Sa'id Adhama

The Executive Secretary, National Universities Commission (NUC), Professor Julius A. Okojie, *OOB*, has advocated for a robust mentoring programme for the youth and students to avoid youth restiveness and other social vices, especially within the Nigerian University System (NUS). He

said this on Monday, 4 April, 2016, when he received the Special Assistant to the President on Youth and Students Affairs, Mallam Nasir Sa'id Adhama, on a courtesy call, in his office.

The Executive Secretary remarked that the Commission was determined to ensure that the

NUS functioned better and to consolidate on its own achievements as the regulator of the system. He acknowledged the role of the Office of the Special Assistant to the President on Youth and Students Affairs in getting students of Nigerian universities actively engaged, through seminars, workshops and

conferences, which specifically address their needs, stressing that restless youths are a huge challenge to the NUS.

Professor Okojie further said that the students needed to be properly guided to shun all forms of vices, particularly, in their adolescent years, so as to become useful to the society when they transit to adulthood. He called on the Presidential Aide to articulate the programme of activities for the forth-coming All Nigerian Tertiary Institutions Students Affairs Conference (ANTISAC),

including the proposed number of stakeholders and the budget. He promised that the Commission would support his team to organise the programme, so long as it would positively impact the youths and students.

Earlier in his speech, Mallam Adhama, thanked Professor Okojie for his open door policy and for according them a warm reception, even at short notice. He acknowledged the role of the NUC in advancing the agenda and policies of the President. He said that the Commission had been

widely recognised as a performing agency of Government, adding that, long before his appointment as SA to the President, he had observed some landmark achievements recorded by the NUC. He informed the Executive Secretary that the President appointed him as Special Assistant, with a charge to ensure that youths and students are linked with the policies and programmes of the present administration, in order to bring about a total reform of this segment of the society.

the many challenges facing students in tertiary institutions, saying that his office would do everything possible to ensure that the President achieves his desire to tackle them. He intimated the Executive Secretary that his office was in the process of hosting an All Nigerian Tertiary Institutions Students Affairs Conference (ANTISAC) that would bring together all students of Nigerian tertiary institutions. He said that

the Conference would help to gather data and better appreciate the issues bothering the participants with the hope of empowering them in the long run. He, therefore, solicited for the support of the Commission to enable his office organise a successful programme.

In the delegation were, the Chief of Staff to the S.A, Mall. Dahiru Mustapha; Technical Assistants

on Administration, Hon. James F. Onuh; Student Matters, Comrade Jacob Okpanachi; Programmes, Mr. Lugard Okonobo; Inter-governmental and Partnership Matters, Mr Charles Olufemi; Media, Mall. Ibrahim Dan-Halilu and Protocol Officer, Mr Dubem Muoghalu.

*As Kano Govt. Approves N0.52 Billion for Infrastructure*

ES, NUC, Prof. Julius A. Okojie (left) and Vice-Chancellor of KUST, Wudil, Prof. Shehu Alhaji Musa

The Kano State Government has approved the release of the sum of N520, 903, 329.27 (Five Hundred and Twenty Million, Nine Hundred and Three Thousand, Three Hundred and Twenty Nine Naira, Twenty-Seven Kobo) to the Kano University of Science and Technology (KUST), Wudil, to address its infrastructural needs and prepare for the forth-coming accreditation of its programmes.

The Vice Chancellor, Professor Shehu Alhaji Musa, disclosed this when he paid a courtesy visit to the Executive Secretary, National Universities Commission, Professor Julius A. Okojie, OON, in his office, on Tuesday, 5 April, 2016. He said that the processing of the

employment of 15 Professors from Pakistan and other countries by the Chancellor, Alhaji Aliko Dangote, GCON, and additional 15 Professors by the Kano State Government, had reached an advanced stage. The Chancellor is also constructing 15 housing units for the Professors, while the Kano State Government had transferred the Daula Hotel, Kano, to the University, to address its accommodation needs. The Vice Chancellor added that the University had since commenced renovation of the hotel, to provide decent accommodation for its Sabbatical and Visiting Scholars.

Speaking further on the Chancellor's interventions in the University, Professor Musa said Alhaji Dangote asked the

University to come up with a Blueprint for Agriculture that would cover One Million Sugarcane, Rice, Tomato, Palm Produce and Fish farmers. He sank an Industrial Borehole that has the capacity to serve 30, 000 people, which is twice the current population of the University. Alhaji Dangote also constructed two hostels, each with 500-bedspace capacity for male and female students. These are in addition to his support for the development of the University's Master plan and annual retreat as well as endowment of 17 Professorial Chairs in different subject areas.

Professor Musa further reported that KUST, on its part, had completed the construction of its Post Graduate School, five blocks

of hostels and four units of Academic Staff offices. The Faculties of Agriculture, Arts and Environmental Sciences, as well as the Central Research Laboratory and Entrepreneurship Centre are almost completed, while three other Centres are under construction. These are the KUST Division of Agricultural Research and Colleges (KUSTDARC), Centre for Continuous and Innovative Education as well as the Centre for Renewable Energy and Climate

Change. To update its Library's e-activities, KUST has subscribed to the Nigerian Research and Education Network (NgREN). The Vice Chancellor added that the University would be pleased to have Professor Okojie commission some of these projects.

The Executive Secretary commended the Kano State Government, the Chancellor, Governing Council and

Management of the University for their efforts, support and determination to reposition KUST, urging them not to relent as all stakeholders: staff, students, the immediate community, Kano State, its neighbouring states and the country in general, would be the better for it. As long as the University does not compromise standards and it abides by laid down rules and regulations, he said, it could count on NUC's support.

Professor Musa was recently appointed the new Vice-Chancellor of the University.

### -Prof. Okojie Cautions Parents

L-R: The President of NANS Ghana, Mohammed Katagun; Prof. Okojie, Chief of Staff to the NAN's President, Abubakar Ismail Kankara and Fahad Sani Ahmed.

The Executive Secretary, National Universities Commission (NUC), Professor Julius A. Okojie, OON, on Tuesday, 5 April, 2016, received a three-man delegation of the National Association of Nigerian Students (NANS) in Ghana, led by the President, Mohammed Katagun.

In his remarks, the Executive

Secretary described as alarming, the increasing rate of Nigerians tramping to Ghana for university education, even with the poor facilities and lack of standards and quality in the so-called universities. He advised Nigerian students that enroll in universities abroad to always verify the status of such universities, before registration.

The Executive Secretary, who was represented by the Director, Student Support Services, Dr. Mrs. Rukayat Gurin, decried the fact that many parents do not enquire about some of the universities before seeking admission for their wards, thereby becoming victims of mushroom centres that pose as universities. He informed the student body that, apart from the

Commission, there is also a department in the Federal Ministry of Education (FME), with the responsibility of maintaining a list of accredited universities. He acknowledged that due to limited carrying capacities in Nigerian universities, most of the prospective students get frustrated after several failed attempts at admission and resort to universities outside the country. Many of these institutions turn out to be illegal. He tasked parents and their wards to make proper enquiries of their status, whether they are recognised by the FME and accredited in the home country.

Professor Okojie expressed delight that most Nigerian students in foreign institutions today have received enlightenment on the growing list of degree mills scattered abroad, especially those within the West African sub-region. He particularly expressed displeasure

at the rate at which Nigerian students travel to Ghana in search of university education, when the facilities there are not comparable to those in Nigerian institutions. While noting that the minimum requirements for university admission in Nigeria are the basic requirements for university education, Professor Okojie urged those seeking admission abroad to double check the institutions they are applying, warning that graduates of degree mills can neither participate in the National Youth Service Corps (NYSC) Scheme, nor seek employment in the country.

While lamenting the experience of Nigerian students in Ghanaian institutions, Mr. Mohammed said there are about 80,000 Nigerians studying in Ghana. School fees and accommodation are so high that some are forced to drop out of school. The President stated that his Association wanted to collaborate with NUC to create a forum, where parents and their

wards could be enlightened on accredited institutions, to avoid the situation that many Nigerians currently attending schools have found themselves in Ghana.

He explained that some of the Nigerian students became victims of the non-accredited institutions because of the frustration of not securing admission in the country and that those Ghanaian universities offered them easier access to education. He reiterated the words of the Executive Secretary that it was unfortunate that products of such institutions neither take part in the National Youth Service Corps (NYSC) Scheme nor make use of the certificates for employment purposes in the country. The collaboration between NANS, Ghana and the NUC would, therefore, help to address the situation.

The President was accompanied by his Chief of Staff, Abubakar Ismail Kankara and Fahad Sani Ahmed.

### PRESS RELEASE

## Medicine, Dentistry Programmes to Run for Seven, Not 11 Years

The new Benchmark Minimum Academic Standard (BMAS) for Medicine and Dentistry, which has since been made public by the National Universities Commission (NUC), provides for a seven-year training, leading to the award of MBBS/MDS and not the 11 years being erroneously circulated in the mass media.

Although the so called '11-year Medical Programme' stories have been credited to the Commission's Executive Secretary, Professor Julius A. Okojie's keynote address titled, 'Development of Medical Education in Nigeria: Prospects and Challenges', which was delivered at the Matriculation and Inauguration of the University of Medical Sciences, Ondo, on Saturday, March 12, 2016, nowhere in that lecture was 11 years mentioned or implied.

Prof. Okojie, who was represented by the Deputy Executive Secretary I, Professor Chiedu Mafiana, had explained that the new curriculum provides for a seamless seven-year programme. With the new curriculum, a Medical student would be expected to graduate in Basic Medical Sciences, with options in Anatomy, Medical Biochemistry and Physiology in the first four years, before proceeding for the clinical training that would run for three years.

Prof. Okojie had further explained that the reviewed BMAS went through a long process, which included wide consultations with the academia, professional associations and regulatory body, following the conduct of a Market Needs Assessment. According to him, the consensus was that medical training should be post-graduate. The main goal is to ensure that the crop of graduates emerging from the programme are psychologically matured to practice, with a high level of competency.

The new BMAS for medical education still retains the fundamental learning objectives of the six-year programme: the national development goals for health, while retaining the international outlook to guarantee global competitiveness. While noting that the extant six-year programme shall continue to subsist for a period to be determined, Prof. Okojie observed that attempts had been made over the years to run Medical programme using course credit system and that the hallmark of the new document is that it clearly apportions credit weightings to all the courses and activities.

“In line with global practice and to ensure that knowledge and skills are effectively imparted”, Okojie said, “modern course delivery systems have been prescribed. Among core teaching facilities and modes of learning recommended are:

### ***Clinical Skills Laboratory.***

The use of the facility would represent a shift in the current mode of medical training to problem-based solving approach and the application of modern techniques which involves use of Mannikins and simulation materials. Clinical Skills Laboratory provides a learning platform in clinical, and information technology skills to certain level of competence before direct exposure to patients, which afford the learner and teacher advanced knowledge in a seemingly practical environment. The facility can also serve as a multi professional/inter professional interactive forum for communication skills development. The simulated patients also provide the learner a safe art of clerkship before direct contact with the real patient thus providing

a learning method that efficiently fills the gap between theoretical knowledge and clinical practice.

***Classroom Equipment***

Adoption of modern delivery method using ICT has become inevitable. Classrooms should be equipped with smart boards, document scanners and biometric scanners for lecture attendance.

***E-learning materials and Research Information Platforms***

E-learning materials accelerate understanding of courses taught and have become a veritable tool for learning. Research, generally, are meant to address social issues as well as deepening the knowledge and advancement in the field of studies. Information on the developments and applications in the field of study should be readily available.”

On the above, Prof. Okojie said, “The availability of Nigerian Research and Education Network (NgREN) has made access to teaching (such as Telemedicine) and research information readily accessible, and all Nigerian universities should key into it.”

Since the first erroneous publication of '11 years for Medical Programmes', NUC has sought to correct this misconception by widely circulating the Keynote Address and a Press Release on the matter. The Executive Secretary also took time to correct the misconception by speaking, extensively, on the matter at the recent recognition ceremony of the Edo University, Iyamho, held at the NUC Secretariat, Abuja.

## NATIONAL UNIVERSITIES COMMISSION

### RE: ACADEMY OF SCIENCE ACCUSES NUC OF TAKING BRIBES

The attention of the National Universities Commission (NUC) has been drawn to the publication in the Punch Newspaper of Tuesday, 1 March, 2016 titled “Academy of Science accuses NUC of taking bribes”.

The Commission decided to address this issue via this medium because the publication is already in the public domain which makes it imperative to clear the air on some of the issues raised, by no less a person than a professor who is the President of the Nigerian Academy of Science (NAS) and a one-time Vice-Chancellor, who had hosted several Accreditation Panels and ought to know better.

It is important to state that Professor Oyewale Tomori, while delivering the Convocation lecture at the University of Abuja attempted to bring to disrepute the National Universities Commission and its accreditation system. It is pertinent to state that a good number of the accreditation assessors of programmes in the Science discipline in Nigerian Universities on which, he is casting aspersions, are members or potential members of the Academy.

For the avoidance of doubt, the NUC has a track record of Quality Assurance that stands out nationally and internationally. The Commission, from time to time, has been commended by different bodies on its accreditation procedure and overall Quality Assurance function. The NUC accreditation system has been understudied and replicated by other similar Quality Assurance agencies on the continent; and the Commission has also been invited at different times to facilitate the establishment of Quality Assurance agencies in countries without one. Currently, the Commission chairs the African Quality Assurance Network.

The Commission takes exception to the accusation of the NAS President that NUC officials collect brown envelopes during accreditation exercises. Even though the NAS President was quoted in the publication as having said that NUC alludes to the fact that those who give and take the envelopes are Professors, and that the NUC forgets that the results bear “NUC's accreditation”, the fact still remains that accreditation is a peer-review exercise amongst academics all over the world. The Professor should therefore be bold enough to address the issue, if any, with his professional colleagues rather than point accusing fingers at the Commission.

In order to ensure the integrity of NUC accreditation exercise, there exists a widely publicised Code of Conduct guiding the conduct of Accreditation Exercise among the Panel members which expressly directs Universities not to have any financial dealing with assessors as their DTA, return transportation and honorarium for job done are taken care of by NUC. All panel members are also required to declare the existence of conflict of interest before being assigned the task. It is not clear to us whether Prof Tomori was involved in giving or taking the “brown envelop” as a Professor and a former Vice-Chancellor which he had never brought to the attention of the Commission.

On the issue of curriculum, it is pertinent to note that the Commission consistently engages in the review of its BMAS to meet National Developmental Objectives and International Best Practices. If Professor Tomori is current on issues of curriculum, he ought to know that the most recent review was in the year 2015 which was based on Labour Market Expectation of Nigerian Graduates and is on the NUC website.

It is curious that the Professor accused NUC of doing government's bidding. It is on record that whereas NUC is a statutory agency of the Federal Government of Nigeria, there has never been any form of interference from any quarter with regard to the outcome of the Commission's accreditation exercise from 1990 to date.

As the president of NAS, Prof. Tomori is in a position to constructively engage with the Commission towards the overall improvement of university education especially in the Sciences.

The National Universities Commission will continue to promote quality delivery of university education in Nigeria. This is our mandate, and the Commission remains willing to collaborate with well-meaning Nigerians and others to achieve it.

**NIGERIAN NATIONAL MERIT AWARD**

**CALL FOR NOMINATION / APPLICATION FOR YEAR 2016**

The Governing Board of the Nigerian National Merit Award is currently soliciting nominations or applications for the award of the Nigerian National Order of Merit (NNOM) for the 2016 round. The deadline for nomination is 21<sup>st</sup> March, 2016. Nominations are valid only for the year of nomination. However, candidates who have been previously nominated should state clearly additional work(s) done since they were last nominated or the new grounds for re-consideration of their nomination.

**ABOUT NNMA**

NNMA is value driven quasi-academic agency of the Federal Republic of Nigeria. It was established by Act 53 of 1979 as amended by Act 96 of 1992 (CAP 122 LFN, 2004). The Mission statement for NNMA reads: “Committed to stimulating and rewarding, academic and professional excellence for national development of Nigeria”.

**THE NNOM AWARD**

- i. The Nigerian National Order of Merit (NNOM) is an “Order of Dignity” and distinct from the National Honours. It was instituted to accord proper and due recognition for outstanding intellectual and academic attainments and contributions to the general development of Nigeria. The President of the Federal Republic of Nigeria is required by law (NNMA Act Section 8) to confer the NNOM Award annually, on the recipient(s), on the first Thursday in the month of December. The objective of the Award is to stimulate and reward excellence in Science, Engineering/Technology, Medicine, Humanities, Arts & Culture and other fields of human endeavor.
- ii. **A recipient of NNOM Award is entitled to:**
  - a. use the designation Nigerian National Order of Merit (NNOM) after his/her name.
  - b. receive a Cash Prize, a certificate, a medal; and
  - c. such other privileges as are enjoyed by recipients of high levels of national awards and honours.

**ELIGIBILITY**

- i. The Award is open to all citizens of Nigeria at home and abroad.
- ii. Any Nigerian citizen of outstanding merit can be nominated by one or more Nigerian citizens. Any person may by himself/herself, where not sponsored by another person, apply to the Board for this purpose. Where two or more Nigerians are collaborating on any deserving undertaking, they can be similarly nominated for a joint Award.

**NOMINATION/APPLICATION PROCEDURE**

- i. Nominations shall be made strictly on the prescribed Nomination/Application Form, and in the format therein. Sponsors should provide brief information on themselves. The Nomination/Application Form may either be collected at the NNMA Secretariat or downloaded from the NNMA website, [www.nnma.gov.ng](http://www.nnma.gov.ng). The form as advertised is also valid.
- ii. Only one nomination/application may be submitted on the prescribed application form.
- iii. In private consultation with the nominee, the nomination/application form shall be accompanied by:
  - a. The *curriculum vitae* of each candidate.

- b. A statement, preferably by the candidate, of between 250 – 500 words, specifying/defining and clearly illustrating in concrete terms, NOT generalities, what the candidate considers his/her unique and meritorious contribution to knowledge in his/her field of endeavor/specialization to merit consideration for the NNOM award.
- c. A list of not more than ten publications, cited in the candidate's curriculum vitae, which in the nominee's consideration, buttresses his/her claim to uniqueness and merit. Copies of the ten publications must be submitted with the application.
- d. 3 portrait photographs of the candidate.
- iv. All nominations and supporting documents, including copies of the ten publications submitted to buttress the nominee's claim to uniqueness and merit, must reach the Secretary of the Nigerian National Merit Award on or before the stipulated deadline. Any nomination or application including the specified requirements arriving later than the deadline will not be considered.
- v. All supporting documents, including the nomination form should be sent in three (3) copies.
- vi. Candidates with incomplete documents shall not be considered.
- vii. Neither the Governing Board nor any of its Specialized Committees of Assessors shall entertain or enter into any correspondence with candidates or their sponsors regarding the processing of, or decision on any Nomination.
- viii. The Nomination/Application Form and supporting documents shall be addressed, sealed and delivered on or before 21<sup>st</sup> March, 2016 to:

**SELECTING/CONSIDERATION**

- (i) Selection will be made from wide range of contemporary works which are innovative, creative, essentially Nigerian in content and of national and international distinction; such works should emphasize the uniqueness of the achievements to humanity generally and Nigerian society in particular.
- (ii) The achievements may constitute a specific break-through in any field or may be of a cumulative nature; and
- (iii) The Award emphasizes distinct merit and upright morality, as this is the highest Merit Award in the Country.
- (iv) Nominators must not make public the names of nominees.
- (v) In order to preserve and enhance the credibility of the Award, the submissions of the prospective recipients are usually subjected to rigorous assessment by experts, known as Specialized Committee of Assessors in the following four core areas:-
  - Science
  - Medicine
  - Engineering/Technology
  - Humanities, Arts and Culture and other fields of human endeavour.

- (vi) When and where necessary, External Assessors are usually engaged from the national or international academic community.

## ANNOUNCEMENT/INVESTITURE

- (i) Successful candidates will be notified about the outcomes of the process between October and November 2016, to be followed by an official public announcement latest two weeks from the date of Investiture.
- (ii) The Investiture of NNOM Awardee(s) is personally conducted by the President of the Federal Republic of Nigeria.
- (iii) The Investiture holds back-to-back with the Annual Forum of Laureates of the Nigerian National Order of Merit (incorporating)

## NATIONAL UNIVERSITIES COMMISSION

### ADVERTORIAL

### CONFIRMATION OF APPROVAL OF THE NIGERIAN UNIVERSITIES e-LEARNING PROGRAMME

The general public is hereby informed that whereas the Commission maintains its stand that online degrees are not accepted in Nigeria at the moment, this does not include the approved Nigerian Universities e-Learning Programme run within the shores of Nigeria.

The Nigerian Universities e-Learning Programme is a legitimate and well thought out pilot e-learning initiative. It is a Public Private Partnership between the National Universities Commission (NUC), Park Associates E-Learning Group, and four federal universities. Its goal is to provide new opportunities for students to access university education in Nigeria.

#### The four Participating Universities are:

- i. University of Uyo;
- ii. National Open University of Nigeria;
- iii. Usmanu Danfodiyo University, Sokoto; and
- iv. University of Maiduguri.

Students enrolled in the Programme can select any of the following undergraduate degree programmes: Economics, Banking & Finance, Accounting, Business Administration and Marketing for which they have requisite qualifications. The Programme for now is only available for candidates who wish to obtain BSc Degree in Economics.

The Commission wishes to use this medium to allay all fears and doubts concerning the legitimacy or NUC endorsement of the Nigerian Universities e-Learning Programme. This is one of the avenues that the National Universities Commission is exploring to increase access to university education without compromising quality. Students in the Programme are therefore advised to continue to pursue their studies without fear and prospective applicants are encouraged to enrol. Concerned parents, guardians, students and the general public may contact the Commission for further clarification on the Programme under reference.

## IMPLEMENTING STEPS FOR NEW MEDICAL SCHOOLS, ACCREDITATION ISSUES AND THE NEW MINIMUM BENCHMARK (2015) FOR THE MBBS/BDS PROGRAMMES

### PROGRAMMES

Following several Stakeholders' meetings in the last two years and as a prelude to the formal release of the New Minimum Academic Benchmark (2015), proprietors of Medical and Dental Schools in Nigeria (both current and prospective) are requested to note the following implementing steps including relevant adjustments relating to accreditation of Medical/Dental Schools.

1. From 1st September 2015, both current and prospective proprietors of Medical and Dental Schools should:
  - a. Write a letter to the Executive Secretary stating their intent and provide relevant information as available.
  - b. On receipt, (if NUC has no obvious reasons to disqualify the application), they would be sent a copy of the BMAS for MBBS/BDS and advised firmly to ensure that they are strictly complied with.
  - c. The setting up of medical schools is not an emergency exercise. To this end, prospective proprietors must own and have in place (prior to a request for a Resource Verification), a fully functional and well run tertiary type hospital. In the circumstance of the above not being in place, consideration for an affiliation with a tertiary government-owned institution may be given only when the said university owns a medical institution fully functional with a minimum of 150 beds and a rural health medical unit. (See Appendix 4 of the BMAS).
  - d. A Pre-clinical Accreditation would be expected to take place within two years of a positive Resource Verification. Students can only sit for the second MBBS professional examination (Anatomy, Physiology and Biochemistry) when they have a successful preclinical accreditation. The preclinical accreditation would, amongst others, concentrate largely on the Department of Anatomy, Biochemistry, Physiology, Pathology and Pharmacology and to a lesser extent, Community Health. All evaluated departments must have the minimum requirements in terms of academic staff, non academic staff and laboratory facilities. (See Appendix 3 of the BMAS)
  - e. The Commission has now approved a Clinical Accreditation expected to take place within twelve months of a successful preclinical accreditation. Subsequent to that, a reaccreditation exercise will take place every five years.
2. With respect to established medical schools, (and irrespective of their accreditation status), it should be noted that only institutions that (by the deadline of March 20th, 2016) have requested and obtained formal approval from the National Universities Commission for a re-evaluation based on the following considerations would be allowed to admit students into the MBBS/BDS programmes from the 2016/2017 academic year:
  - a. All Medical and Dental schools must have an approved, and appropriately utilized, Clinical Skills/Simulation centre.
  - b. Ensure strict adherence to the proper use of the course system for all approved programmes in Nigerian Universities. The implication of the above is that a particular programme (subject) is taught not only broken into cluster units of 1-4 but also have the components of university supervised examinations. For clarity, current end of posting examinations (practiced by some medical/dental schools) that neither have units allocated nor follow the standards of a University examination, do not conform to the Minimum Academic Standards as established by the National Universities Commission.
  - c. Universities are strongly urged to immediately review their current methods of teaching medical and dental students to include more tutorials, self study group teaching, use of IT in the delivery of courses and simulation/competency based evaluations that must be signed by a lecturer not below the status of a senior lecturer. It must be noted that the confirmation of a successful simulation/competency based evaluation should be a mandatory requirement before the students are eligible to sit for the various professional/sessional examinations

3. Proprietors are urged to note the Essential Component changes of the new curriculum expected to be in use from the 2016/2017 academic session. Details of these changes are available in the New Minimum Academic standards booklet and at the National Universities Commission website. ([www.nuc.edu.ng](http://www.nuc.edu.ng).) Major components include the following:
  - (a) The approval of three alternative models viz;
    - i. A seven year MBBS/BDS programme that encompass a mandatory seamless four-year acquisition of the B.Sc. (Basic Medical Science) with interest in either Anatomy/Physiology/Biochemistry. At the end of seven years, students would have acquired the Bachelor of Basic Medical Science, Bachelor of Medicine and Bachelor of Surgery degrees. In case of the dental programmes, the students would have acquired a degree in Basic Dental Science and Bachelor of Dental Surgery.
    - ii. In order to allow for career change for interested non-medical health professionals, the Commission has also approved a four year programme leading to MBBS/BDS for interested and qualified graduates of Nursing, Pharmacology, Physiotherapy, Image Science, Paramedics, Anatomy, Physiology, Biochemistry and Pharmacology. It must be noted for such to be considered for admission they must have at the WAEC/NECO levels minimum credit scores in Mathematics, English, Physics, Chemistry and Biology at one sitting, prior to the admissions for their first degrees. They must also have a good CGPA.
    - iii. Admission into universities based on the current six year programme would be allowed to continue as suitable alternative based on the discretion of the University.
    - iv. It should be noted and emphasized that all the above degrees have the Bachelor appellation as they remain undergraduate programmes.
  - (b) Specific periods of posting to the department of Family Medicine. The obvious implication here is that, the Universities should create the Department of Family Medicine following their due process.
  - (c) Redesignation of the Department of Pharmacology to the Department of Pharmacology and Therapeutics. The department is now expected to provide relevant basic clinical teaching and conduct relevant professional examination in Pharmacology. They will also be expected to provide relevant clinical teaching in Therapeutics. All Universities should set in motion the machinery to achieve the above.
4. In view of the above essential component changes of the new curriculum, the Commission will be organising a National training for Medical teachers in Nigerian Universities. Details of the training would be made available shortly.
5. Interested stakeholders are invited to send comments/suggestions on the above to: The Executive Secretary, NUC, [okojie\\_julius@yahoo.com](mailto:okojie_julius@yahoo.com) and copy to [chiedu.mafiana@gmail.com](mailto:chiedu.mafiana@gmail.com)

## **RE: CALL FOR 2016 NOMINATIONS FOR THE UNESCO-JAPAN PRIZE ON EDUCATION FOR SUSTAINABLE DEVELOPMENT**

The National Universities Commission (NUC) has received, through the Federal Ministry of Education, a UNESCO circular on the UNESCO-JAPAN PRIZE ON EDUCATION FOR SUSTAINABLE DEVELOPMENT, (ESD).

The framework and aim of the Global Action Programme (GAP) on ESD, the UNESCO-JAPAN Prize on Education for Sustainable Development (ESD) is to honor individuals, institutions, organisation or other entities for outstanding projects or programmes in the field of ESD. The Prize was established by the Executive Board of UNESCO at its 195<sup>th</sup> session, and officially announced at the UNESCO World Conference on ESD (10-12 November, 2014, Aichi-Nagoya, Japan). It consists of three annual awards of US \$50,000 for each recipient, and was awarded for the first time in November 2015.

Nomination can be made by Governments of UNESCO Member States via their Permanent Delegation to UNESCO and Non-Governmental Organisation (NGOs) in official partnership with UNESCO. Nomination must focus on a specific ESD project or programme of the nominee. Each Permanent Delegation or NGO can make up to three nominations from any edition of the Prize. Self-nominations are not accepted.

### **Selection Criteria**

The three Prize winners will be selected by the Director-General of UNESCO on the basis of recommendations made by the independent International Jury of the UNESCO-Japan Prize, consisting of five experts from all geographical regions. The project/programme of the nominee will be assessed by the Jury on the basis of the following criteria:

- a. Transformation: The Project/programme practices ESD as transformative education in support of sustainable development, leading to individual and social change.
- b. Integration: The project/programme addresses the three dimensions of sustainable development (society, economy, environment) in an integrated way.

Interested stakeholders are advised to forward their nominations, to the undersigned by email to: [mamaidoh@yahoo.com](mailto:mamaidoh@yahoo.com) on or before 15<sup>th</sup> April 2016, for processing and transmission to UNESCO.

More information can be found at: <https://en.unesco.org/prizes/nomination>.

## NATIONAL UNIVERSITIES COMMISSION

### RE: MORATORIUM ON PART-TIME PROGRAMMES

The National Universities Commission, cognizant of the need to streamline the operations of Part Time and Sandwich programmes in Nigerian universities, had through a publication in the print media, including the Guardian and Sun Newspapers of Monday, 19th March, 2012, placed a moratorium on admission into parttime programmes in Nigerian universities. In the publication, the universities were requested to fully disclose all Part-Time and Sandwich programmes, with respect to enrolment and staffing profile, within four weeks of the publication, and to conduct in-house staff and student audit and forward same to the Commission. As a follow up to this, the Commission vide a letter dated 14 January, 2013, sent a reminder to the universities requesting those that were yet to provide information on their Part-Time and Sandwich programmes as well as affiliation arrangements to do so on or before 15 February, 2013.

## GUIDELINES ON PART-TIME AND SANDWICH PROGRAMMES IN NIGERIAN UNIVERSITIES

Below are guidelines for conducting Part-time and Sandwich programmes in Nigerian universities. All universities currently operating Part-time programmes are expected to comply with the guidelines on programme by programme basis.

Consequently, universities still interested in running Part-time programmes are advised to forward fresh applications to the NUC on programme by programme basis.

This is, however, subject to the readiness of the university to comply with the following extant guidelines on part-time programmes:

1. The admission and graduation requirements, Staffing, Library and physical facilities requirements must be in line with the Benchmark Minimum Academic Standards (BMAS) for the various full-time academic programmes;
2. For a programme to be eligible to run on part-time basis, the approved full-time equivalent must be available in the university, must have earned full accreditation and must be run within approved campuses;
3. The enrolment into part-time programmes must not exceed 20% of total students' population in the programme;
4. The minimum duration of the part-time programmes must be 150% of the approved duration of the Full-Time equivalent;
5. Approval shall not be granted for part-time programmes in Environmental Sciences, Engineering/Technology, Law, Medicine/Medical Sciences, Pharmacy /Pharmaceutical Sciences, Dentistry; and Veterinary Science;
6. All admissions into part-time programmes must be through the Joint Admissions and Matriculation Board (JAMB). Part-time programmes must be run within approved campuses of universities where the human and material resources for the teaching of the programmes are domiciled, i.e. on the main campus of the university;
7. Part-time programmes shall be subjected to the NUC accreditation assessment upon maturity of the programme;
8. For any programme to be eligible for part-time mode, it must have produced two (2) sets of graduates and satisfied the Resource Verification Requirements.
9. Commencement of a part-time programme MUST be subject to NUC's approval. Approval of commencement of all parttime programmes must be obtained.

The National Universities Commission shall not hesitate to apply appropriate sanctions on any university which violates any of the stipulated Guidelines on Part-Time and Sandwich Programmes.

## List of Universities with Approved Postgraduate Programmes

The National Universities Commission (NUC) has observed with great concern that some Nigerian universities are running unapproved postgraduate programmes, leading to the award of Masters and PhD degrees. The Commission has also observed that some Parastatals and Institutes are awarding these same Postgraduate degrees, either on their own or through unapproved affiliations with Nigerian and foreign Universities. Such practices are not only unethical, but also antithetical to time-tested quality assurance best practices. The qualifications/awards resulting therefrom are not recognized. The Commission hereby notifies the general public that only the following universities have approval to offer postgraduate programmes at the Masters' and Ph.D levels in Nigeria, as of 30th July, 2012:

### Federal Universities :
