Chairman, House Committee on Tertiary Education and Services, Hon. Aminu Suleiman Goro (4th right), Sen. Elect, Babba Kaita (5th right) and Hon. Aishatu Dukku (3rd left) with other members of the committee

The House of Representatives Committee on Tertiary Education and Services last Wednesday held public hearing on nine proposed tertiary institutions..

In his opening remarks, the Chairman of the Committee, Hon. Aminu Suleiman Goro said the public hearing was also to consider amendments to Acts of six federal universities.

Hon. Goro listed the proposed tertiary institutions as Federal Polytechnic, Dukku (Gombe); Federal Polytechnic, Shendam (Plateau); Federal Polytechnic, Abriba (Abia); Federal University, Birnin-Kebbi (Kebbi).

Others include Federal University of Agriculture, Jalingo (Taraba); Federal College of Education, Akwette (Abia); Federal

University of Technology, Kaduna (Kaduna); Federal College of Education, Monguno (Borno); and National Institute for Education Planning and Administration (Nigeria).

The universities whose Acts are billed for amendment include- Usmanu Dan Fodiyo University, Sokoto; University of Lagos, Akoka; Obafemi Awolowo

University, Ile-Ife; University of Nigeria, Nsukka; University of Maiduguri; Abubakar Tafawa Balewa University, Bauchi; and National Open University of Nigeria (NOUN).

The House Chair said “We deemed it expedient to subject these bills to public scrutiny and elicit inputs from the general public. You will agree with me that easy access to quality tertiary education is not only desirable but also inevitable.”

He said, however, that “the tertiary institutions in the country cannot adequately accommodate the quests for admissions by Nigerians, which calls for more to address the protracted problem.”

In his submission, President of the Academic Staff Union of

Nigerian Universities (ASUU), Prof. Biodun Ogunyemi, expressed concern over the state of tertiary education in the country, especially the gross under funding, which calls for drastic action.

He said that for the above reasons, ASUU was opposed to the establishment of any new tertiary institution by the federal government.

However, House Committee members who sponsored the bills insisted that federal character demanded that all states should be entitled to a federal polytechnic and shutting some states out of it would not be equitable.

“Federal character entitles every state to a polytechnic. Let us establish them first, after which the issue of funding would be addressed,” one of them said.

This position was also shared by the Tertiary Education Trust Fund (TET-Fund) and the National Board for Technical Education (NABTE) and National Commission for Colleges of Education (NCCE) whose officials lauded the move for new tertiary institutions.

The National Universities Commission’s position was presented by the Director, Corporate Communications, Ibrahim Usman Yakasai on behalf of the Executive secretary,

Chairman, House Committee on Tertiary
Education and Services,
Hon. Aminu Suleiman Goro

Professor Abubakar Adamu Rasheed, who stated that the Commission was fully in support and even canvass for the establishment of tertiary institutions to increase access to tertiary education in Nigeria.

In respect of the amendments for the six universities, he noted that the proposed amendments run

through all the statutes of the federal universities and that “NUC recommends that rather than the piecemeal amendments, all proposed amendments should be run through the universities (Miscellaneous Provision) Act which has general applications to all these federal universities on all the issues raised for the amendments”.

The six Universities were seeking for amendments to their laws to specify Bachelor’s Degree as the Minimum Qualification of the Chairman of the Governing Council, Ownership of Intellectual Property and provide for Pre-action Notice to the University Authority; and for Other Related Matters.

the law of the National Open University of Nigeria (NOUN) to provide for the inclusion of Information and Communication Technology as another means of providing Tuition towards the Advancement of Learning throughout Nigeria by the National Open University and for Other Related Matters, “NUC

fully supports and calls for accelerated passage,” he stated.

The Committee of Vice Chancellors (CVC) also supported this position, as posited by its chairman, Professor Joseph Ahanaku and read by professor Abubakar Njodi.

appropriation of more funds to enable them operate optimally.

He also said that passage of those bills would not only expand the scope of the institutions but also make sure that the persons saddled with the responsibility of governing tertiary institutions obtained certain minimum educational qualification. He urged the committee to expedite action on the bills so as to meet up with the 2019 Budget.

On the outcome of the public hearing, Chairman Suleiman promised that the Committee would be thorough, fair and objective.

He said that “A number of factors will guide our action. But we promise to be thorough, fair and objective; above all, necessity and the co-operation of host States, would be the deciding factors.”

Earlier while declaring the public hearing open, the speaker of the House of Representatives, Hon. Yakubu Dogara, represented by the Deputy minority leader, Chukwuma Onyema stated that the public hearing on the bills underscored the importance of education the National Assembly accords to education.

Road Safety Academy To Become Degree Awarding — *Malam Adamu Adamu*

Federal Road Safety Commission (FRSC) Academy, Udi, Enugu State would soon be upgraded to a degree awarding institution.

This was disclosed by the Minister of Education, Malam Adamu Adamu in Abuja when Corps Marshal of the FRSC, Dr. Boboye Adeyemi paid him a courtesy visit recently.

The minister said the Federal Government had almost concluded the necessary procedures to approve commencement of undergraduate activities by the Institution.

He said the National Universities Commission (NUC), was directed to work out the modality, in line with the requirement of establishing or upgrading to a degree awarding institution in Nigeria for government approval.

Mal. Adamu informed Dr. Adeyemi that National Board for Technical Education (NBTE) would ensure maintenance of standard in Technical Education while Nigeria Educational Research and Development Council (NERDC) would develop appropriate curriculum for inclusion in Road Safety as teaching subject at all Primary and Secondary Schools level in the country.

In his address, the Corps Marshal, Dr. Adeyemi told the Minister that FRSC and NUC had

held several discussions along with NBTE on the issue.

He expressed delight that the two institutions were assisting FRSC, adding that upgrading of the proposed facility would broaden the scope of academic activities

and reposition the institution to proffer solutions for sustainable national development and growth.

“Consequently, upon the recommendation of NBTE, the institution would be relocated from Jos to Shendam, where the Plateau State Governor Mr. Simon Lalong has donated a large expanse of land for the purpose” he stated.

The Academy according to him, would be upgraded especially to handle road safety management studies and achieve greater efficiency.

He further explained that, “The academy in Plateau State will continue to award diplomas while the one in Udi, Enugu State will be upgraded to a degree awarding status.”

NDA Partners NCC in Military Technology, Cyber Security

Prof. Umar Danbatta
NCC, Executive Vice Chairman

The Executive Vice chairman of the Nigeria Communication Commission (NCC), Prof. Umar Garba Danbatta hosted the commandant of Nigerian Defence Academy (NDA), Kaduna, Major General Adeniyi Oyeade at NCC headquarters in Abuja recently.

The visit was to strengthen the existing partnership between the two institutions.

Prof. Danbatta expressed gratitude for being a visiting professor at the Nigerian Defence Academy which he said was an institution that had tradition of precision and strict adherence to timelines on academic activities.

He however said that inspite of

that the institution required intervention in boosting its technology infrastructure to ensure safety of the future of the nation.

The NCC boss pledged to assist in stepping up the academy's cyber security programmes.

He revealed that NCC had built two computer laboratories and deployed optic fibre links for the two campuses of the academy in Kaduna through the commission's Advance Digital Awareness Programme for Tertiary Institutions (ADAPTI).

The Executive Vice Chairman reiterated that NCC would collaborate with NDA to support the Academy's effort in becoming a world class institution.

In his address, Maj. General Oyeade informed that NDA was founded in 1964 charged with mandate of training military personnel, adding that the institution from 2007 was upgraded to a degree awarding institution comprising of many faculties where cadets received degrees alongside military training. The institution had also commenced the award of postgraduate degrees in several disciplines in line with National Universities Commission (NUC) guidelines and approvals.

He thanked NCC for the robust support given to NDA in the past

Maj. Gen. Adeniyi Oyeade

through development of its ICT infrastructure adding that the NDA craves for more support to fill the gaps in the institution's infrastructural needs.

Other areas the NDA sought for support included provision of a server managed wired line infrastructure and building of more computer-based Testing (CBT) centres filled with about 350 computers.

He also requested NCC to open its doors for collaboration in manpower training for academic and non academic staff of NDA; boost the school's existing end-user electronics centre; and build a robust back up power to support the infrastructure, among several others.

US Mission Salutes ACEGID

—for solving the “white powdery” issue

The research feat of the African Centres of Excellence for Genomics of Infectious Diseases (ACEGID) domiciled in Redeemer's University (RUN), Ede Osun State has continued to reverberate with the successful exploit of the Centre in addressing a potential threat from a white powdery substance in a passport received by the Consular section at the United States Embassy in Abuja.

The echo of this research breakthrough, was sounded by the US Mission in Nigeria. In a letter of commendation dated 24 August, 2018, signed by the US Ambassador to Nigeria, Stuart W. Symington, the mission thanked the World Bank and National Universities Commission (NUC) for creating the platform for ACEGID to make the breakthroughs and for the impact its achievements was making generally in the ACE Programme.

The mission explained that the outcome of the Centres's research activity led to the prompt and comprehensive screening as well as the extensive metagenomic analysis RUN's laboratory provided. According to the statement by the Ambassador, the assistance of

Prof. Debo Adeyewa
Vice Chancellor, Redeemer's University

ACEGID helped to ensure the safety of the US Embassy's personnel in Nigeria.

In his words, “my staff members report that your team was exceptionally responsive throughout the process, and that their quick work ensured we were able to resume mission activities well ahead of what we initially expected. Contrary to our expectations, we only experienced minimal disruption to Consular and other services the Embassy provide to Nigerian and American citizens alike,” he added.

The US Ambassador stressed that ACEGID played a pivotal role which resulted in shutting down of the Consular section of the Embassy and quarantine of all

consular staff based on the Centre's instruction. He noted with delight that ACEGID handled the whole situation from end to end and within a very short time.

Ambassador Symington acknowledged that the situation was contained by the RUN research team, even before the results of the analyses that were sent to the best US Government analytical institutions were returned. He particularly noted that the results of the analyses from various centres in the US only corroborated their findings, disclosing that this amazed the whole research community in the USA.

It would be recalled that ACEGID had successfully developed

various intervention researches including a prototype for Next Generation Multiplex Pan-Lassa virus 10-minute Rapid Diagnostic test. This prototype had since been validated at the University's clinical testing centre at the Irrua Specialist Teaching Hospital, Edo State, Nigeria. The Centre has also identified four highly specific antibodies that would significantly inhibit the Lassa virus in-vitro, by targeting specific epitopes in the virus.

The Centre recorded a similar research feat when its laboratory was used in the diagnosis of the Ebola virus during the 2014 Ebola Virus Disease Epidemic,

which resulted in the rapid containment of the disease in Nigeria. Working with other researchers in the academia and industry, ACEGID developed the first Ebola Rapid Diagnostics test (REBOVTM). The test, a 15-minute Rapid Diagnostics test had received approval of the World Health Organisation (WHO) and the United States of America's Food and Drug Administration (FDA). The deployment of this test was the breakthrough for the containment of Ebola virus disease in West Africa, among other research successes.

It would be recalled that ACE was instituted in 2013 by the

Governments of Burkina Faso, Republic of Benin, Ghana, Cameroun, Togo, Senegal and Nigeria, with support from the World Bank.

It was designed to promote regional specialisation among participating universities within the fields of Agriculture, Health, as well as Science, Technology, Engineering and Mathematics (STEM). The essence is to address particular common regional developmental challenges as well as strengthen the capacities of the participating universities to deliver high quality training and applied research.

8th International Conference on Appropriate Technology (8th ICAT)

International Network on Appropriate Technology (INAT)

Endogenous Knowledge, Appropriate Technology and Innovation: Linking the Past and the Future

The 8th International Conference on Appropriate Technology will

- 1) Promote Knowledge-based Endogenous Development and the diffusion of related innovations to support Appropriate Technology (AT) practice
- 2) Identify, initiate and combine AT contributions based on both pre-modern and modern knowledge in a manner that is rooted in an appropriate historical perspective
- 3) Provide a forum for networking on AT solutions for the 21st century through the recognition, valorization and re-appropriation of locally-grounded knowledge and practices

Background

Locally-grounded and useful knowledge, both tacit and codified, is one of the most reliable bases for long term, sustainable prosperity. Unfortunately, much of this knowledge remains under-recognized and undervalued, with turnkey solutions from elsewhere often being presented as readily available or convenient. At present, large numbers of people in the Global South, particularly in Africa, still lack access to clean water, sanitation, clean energy, reliable food and nutrition, and safe transportation, among other challenges. Yet in those same societies, some people have time-tested, demonstrable approaches to resolving them, while others are engaged in cutting-edge scientific research and technological development.

All of these, to the extent that they are informed by contextually-relevant needs, and priorities represent an endogenous knowledge resource base. However, refining, upgrading, applying and diffusing this knowledge in the form of improved products, services and practices also requires the dissemination of lessons and experiences between similarly motivated actors from a broad cross-section of any given society: In exploring various local challenges together from an Appropriate Technology perspective, we believe that we can contribute to a more plural, multi-centric, equitable, sustainable and ultimately more just global community.

NATIONAL UNIVERSITIES COMMISSION

ADVERTORIAL

NUC MAKES HISTORY IN RANKING OF OPEN EDUCATIONAL RESOURCES (OER)

The National Universities Commission has made history in conducting the first-ever ranking of Open Educational Resources (OER) held in institutional repositories. It is the first exercise of its kind in the world and it was initiated by the Executive Secretary of NUC, Professor Abubakar Rasheed, mni, MFR for application in the Nigerian University System. The exercise showed that with 12,070 quality OER holdings presented by 50 universities for the inaugural exercise, Nigerian Universities are now among the best in Africa in OER. It is estimated that with full release of the OER holdings and participation by all universities, this number may quadruple in the next two years making the Nigerian University system the richest in OER in Africa. The OER ranking exercise is to be conducted twice a year.

Open Educational Resources (OER) are teaching, learning and research materials in any medium, digital or otherwise, that reside in the public domain or have been released under an open license that permits no-cost access, use, adapt and redistribute by others with no or limited restrictions. They are technology-enabled, open provision of educational resources for consultation, use and adaptation by a community of users for non-commercial purposes. Materials that constitute OER include curriculum maps, course materials, textbooks, streaming videos, pictorial materials, multimedia applications, podcast, and any other materials that have been designed for use in teaching and learning environment.

The OER ranking exercise was conducted by the 12-member National Experts Group on OER Ranking (NEGOR) and a four-person team of external experts from outside Nigeria.

Fifty universities that participated in the inaugural edition were ranked by (a) ownership (federal, State and private) and (b) generation within ownership. The results are shown below.

The attention of the Management of the Tertiary Education Trust Fund (TETFund) is drawn to the mischievous activities of some unscrupulous elements that are visiting public Universities, Polytechnics and Colleges of Education and some regulatory agencies and presenting themselves as staff of, and working with, the Chairman-designate of the Board of Trustees of TETFund. They usually meet the head of an institution, the bursar and/or director of works/physical planning to make all sort of offers/promises of TETFund intervention projects to be allegedly brought to the institution by the Chairman-designate. In exchange, they make different frivolous requests including nominating contractors/consultants and, in many cases, request for financial gratifications.

The Management of the Fund therefore wishes to inform the beneficiary institutions of TETFund in particular and entire public in general that these mischief-makers have nothing to do with TETFund and all their entreaties should be ignored. Anyone that enters into any transaction with them does so at his/her own risk.

NATIONAL UNIVERSITIES COMMISSION

RE: MORATORIUM ON PART-TIME PROGRAMMES

The National Universities Commission, cognizant of the need to streamline the operations of Part-Time and Sandwich programmes in Nigerian universities, had through a publication in the print media, including the Guardian and Sun Newspapers of Monday, 19th March, 2012, placed a moratorium on admission into Part-Time programmes in Nigerian universities. In the publication, the universities were requested to fully disclose all Part-Time and Sandwich programmes, with respect to enrolment and staffing profile, within four weeks of the publication, and to conduct in-house staff and student audit and forward same to the Commission. As a follow up to this, the Commission vide a letter dated 14 January, 2013, sent a reminder to the universities requesting those that were yet to provide information on their Part-Time and Sandwich programmes as well as affiliation arrangements to do so on or before 15 February, 2013.

2.0. Universities That Made Submission

Based on the submissions received, a total of forty (40) universities indicated that they would run Part-Time and Sandwich programmes as detailed below:

A. Federal Universities

GUIDELINES ON PART-TIME AND SANDWICH PROGRAMMES IN NIGERIAN UNIVERSITIES

Below are guidelines for conducting Part-time and Sandwich programmes in Nigerian universities. All universities currently operating Part-time programmes are expected to comply with the guidelines on programme by programme basis.

Consequently, universities still interested in running Part-time programmes are advised to forward fresh applications to the NUC on programme by programme basis.

This is, however, subject to the readiness of the university to comply with the following extant guidelines on part-time programmes:

1. The admission and graduation requirements, Staffing, Library and physical facilities requirements must be in line with the Benchmark Minimum Academic Standards (BMAS) for the various full-time academic programmes;
2. For a programme to be eligible to run on part-time basis, the approved full-time equivalent must be available in the university, must have earned full accreditation and must be run within approved campuses;
3. The enrolment into part-time programmes must not exceed 20% of total students' population in the programme;
4. The minimum duration of the part-time programmes must be 150% of the approved duration of the Full-Time equivalent;
5. Approval shall not be granted for part-time programmes in Environmental Sciences, Engineering/Technology, Law, Medicine/Medical Sciences, Pharmacy /Pharmaceutical Sciences, Dentistry; and Veterinary Science;
6. All admissions into part-time programmes must be through the Joint Admissions and Matriculation Board (JAMB). Part-time programmes must be run within approved campuses of universities where the human and material resources for the teaching of the programmes are domiciled, i.e. on the main campus of the university;
7. Part-time programmes shall be subjected to the NUC accreditation assessment upon maturity of the programme;
8. For any programme to be eligible for part-time mode, it must have produced two (2) sets of graduates and satisfied the Resource Verification Requirements.
9. Commencement of a part-time programme MUST be subject to NUC's approval. Approval of commencement of all parttime programmes must be obtained.

The National Universities Commission shall not hesitate to apply appropriate sanctions on any university which violates any of the stipulated Guidelines on Part-Time and Sandwich Programmes.

List of Universities with Approved Postgraduate Programmes

The National Universities Commission (NUC) has observed with great concern that some Nigerian universities are running unapproved postgraduate programmes, leading to the award of Masters and PhD degrees. The Commission has also observed that some Parastatals and Institutes are awarding these same Postgraduate degrees, either on their own or through unapproved affiliations with Nigerian and foreign Universities. Such practices are not only unethical, but also antithetical to time-tested quality assurance best practices. The qualifications/awards resulting therefrom are not recognized. The Commission hereby notifies the general public that only the following universities have approval to offer postgraduate programmes at the Masters' and Ph.D levels in Nigeria, as of 30th July, 2012:

Federal Universities :

1. Abubakar Tafawa Balewa University, Bauchi
