them to ensure that all their actions were in line with extant rules and laws of the land. He encouraged them to be sure that such actions could be depended at all times when call upon do so.

The President stated that the salary increase of all police personnel was done to encourage the ranks and file of police to shun all temptation of financial or other inducements while discharging their statutory duties. He forewarned that whoever

becomes victim or found gullible of corruption would certainly face the wrath of the law.

The Commander-in-Chief said “illegal detention, extra judicial killings, torture and violation of fundamental rights of people must be avoided at all times.”

As the Cadets received their postings, he informed them that electioneering campaigns has commenced in earnest and enjoined them to make the election violent free, avoid snatching of ballot boxes, multiple voting, vote buying on site, attack on electoral officers and other acts which might negatively impact on the election outcome.

The President commended the police force for being part of the success story of curtailing the menace of Boko Haram insurgency. He said the present administration has mapped out strategies to completely stem out the insurgency.

In his speech, the Minister of Interior, Major General Abdulrahman Danbazau stated that a bill was forwarded to National Assembly for the purpose of repositioning Police Academy. He expressed optimism that the bill would be expeditiously considered and subsequently passed into law. He said the aim of the enactment of the bill was to have better policing in Nigeria.

General Danbazau said “the presence of Mr President underpins his unparalleled commitment to the transformation of not only the police academy but the entire Nigerian police and the security sector at large.”

While delivering his remarks, the commandant, Police Academy, Wudil, AIG Yakubu Jibrin assured Mr President that the Nigerian Police were highly committed to the security of the nation saying that criminals have no hiding place no matter their sophistication.

The Academy was upgraded by the federal government of Nigeria to a full degree awarding institution in 2012 and was recognized by National Universities Commission as thirty seven (37th) and the one hundred and twenty fourth (124th)

university in Nigeria. As part of its aim, the Academy was established to equip trainees with competencies

backed by sound academic background, high professional and moral standards for effective law enforcement and selfless service to the nation.

The Academy activities commenced in September, 2012 with following pioneer faculties:

1. Faculty of Science
2. Faculty of Law
3. Faculty of Social and Management Science
4. Faculty of Humanities

In this year's event, the Academy passed out 602 qualified Police Cadets who were found worthy both in learning and character.

One of the highlight of the event was presentation of awards to the best all round graduating cadet Shuaibu Aminu from Kano State and Benjamin Babuba who emerged the best female Cadet by President Muhammadu Buhari.

So far, the Academy was said to have trained 2,848 ASP Cadets and 2,374 Cadet Inspectors. Thus a total of 5,222 Cadet Officers have passed out through this Academy, since inception, with ten of this officers from Gambia and Sierra Leone.

The prismatic event was attended by the governors of Kano and

Jigawa Dr. Abdullahi Umar Ganduje and Alh. Abubakar Badaru respectively as well as many deputy governors. Other dignitaries were ministers, Service Chiefs, royal fathers, politicians and chief executives of many institutions in the country.

The Executive Secretary, National Universities Commission, Abuja, Professor Abubakar Adamu Rasheed MFR, mni was represented by Deputy Director, Information, Haruna Lawal Ajo at the occasion.

# President Buhari approves 161b 2018 TETFUND Intervention Guidelines

— *Dr. Bichi*

The Executive Secretary, Tertiary Education Trust Fund (TETFund), Professor Bichi Baffa, has informed that President Muhammadu Buhari *GCFR*, had approved TETFund 2018 Intervention Guidelines of 161 billion naira which represented the Education Tax collection for year 2017 and to be utilised in 2019.

Professor Baffa made this known while addressing reporters at the End-of-Year Press Conference on the activities of the Fund held last Friday at TETFund Headquarters.

He highlighted that the approved fund had been allocated to eligible institutions in accordance with the provisions of the TETFund Act 2011, giving a breakdown that each public university would get an allocation of N785,832,700.00, each public polytechnic N536,703,502.00 and each college of education would get N510,084,900.00 respectively. He further said that the detailed breakdown of the allocations would be released after the Fund had issued allocation letters to entitled institutions by Monday, 7 January, 2019.

The Executive Secretary expressed appreciation to the

President for the approval, describing it as a massive boost to higher education institutions, especially at a time when the country was just recovering from recession.

President Muhammadu Buhari, *GCFR*

“Let me therefore, first and foremost, on behalf of the Board, Management and staff of the Tertiary Education Trust Fund, as well as on behalf of the entire beneficiary institutions and community of the Fund, thank the President of the Federal Republic of Nigeria, His Excellency President Muhammadu Buhari *GCFR*, for the gracious approval of the 2018 TETFund Intervention Guidelines, which is the sum to be utilised for 2019 intervention activities in all the

benefitting public tertiary education institutions in Nigeria in accordance with the provisions of the TETFund Act 2011 and the Fund's Guidelines for Accessing, Utilizing and Retiring Intervention funds”.

Giving details of the Fund's intervention activities in 2018, he disclosed that it had disbursed 133.84 billion naira for the period January to December, 2018 across the various intervention lines. The distribution across the three levels of tertiary education was as follows; Universities – 66.93 billion naira Polytechnics - 32.37 billion naira, Colleges of Education – 32.65 billion naira, while others got 1.89 billion naira. He said that the Fund reaped the benefits of its 2017 Projects Proposal Defense and Access Clinic for institutions in 2018 with about 97% increase in access of intervention fund by beneficiary institutions from 69.18 billion naira in 2017 to 133.84 billion naira in 2018.

While reporting on the 2018 TETFund intervention activities, he said that the Fund focused its interventions on Public Tertiary Education Institutions in the areas specified by the TETFund establishment Act 2011 comprising of the following key areas: funding to provide essential physical

infrastructure for teaching and learning; funding to provide instructional materials and equipment; Funding to support Research and Publication; funding to support Academic staff training and development and funding to support the improvement of quality and maintenance of standards in critical and essential areas of need in beneficiary institutions

He further stated that in 2018, the Fund fully implemented the 2017 Revised Guidelines for accessing intervention funds by beneficiary institutions to ease the processes of submission and approval of projects proposals for the various intervention lines. This, he said, had contributed significantly to beneficiary institutions in delivering their 2017 intervention projects within the specified project cycles. The internal controls introduced by the Fund in 2017 resulted to high level of compliance with the Guidelines for accessing funds by beneficiary institutions throughout 2018.

On 2018 Education Tax Collection, Professor Baffa said that as at November 2018, the total education tax collection was 200,793,193,208.54 billion naira, which indicated an increase of about 25.47% over the previous year's collection of N154.9Billion. He said that the growth in the Education Tax collection was confirmation that Nigeria's economy had

recovered from the avoidable recession it was plunged into by the previous administration. The increased collection would obviously translate to higher allocation to public tertiary education institutions which by implication would translate to more projects, scholarships and

**Mallam Adamu Adamu**  
**Minster of Education**

research funds in the institutions.

He explained that in the year under review, TETFund intervention activities included infrastructure projects as one of the core mandates of the Fund was supporting beneficiary institutions with funding for physical infrastructure for teaching and learning. He said that TETFund had granted approval-in-principle for the commencement of 226 new projects in universities, polytechnics and colleges of

education; disbursed 329 first tranches, 112 second tranches and 189 final tranches of projects across beneficiary institutions landscape. He elaborated that a total number of 189 physical infrastructure projects had been completed in universities, polytechnics and colleges of education while 112 were at various levels of completion.

“To ensure prompt utilisation of completed physical infrastructures by institutions, we ensured through monitoring visits, that such projects executed in 2018 included all the essential components (building, equipment, furniture and landscaping/external works) while supplies of heavy or sophisticated equipment included installation, training and commissioning thus delivering fully functional facilities. We have inspected and monitored 361 project sites across the country. 301 projects were found satisfactory and disbursements for their subsequent tranches were effected. Only 60 projects were queried as a result of some infractions and the institutions were directed to address the infractions before such projects are cleared for subsequent disbursement”.

Professor Baffa also reported that in 2018, 37 institutions applied for reprioritisation and/or unbundling of their projects. All but one were cleared and granted the permission to reprioritise or unbundle. This had helped in addressing some of the challenges militating against

completing old projects in the affected institutions.

He said that the Fund granted a total of 3,247 scholarships to academic staff of universities, polytechnics and colleges of education to study for Masters and Doctorate degrees at home and abroad. In addition, it sponsored a total of 10,499 staff of beneficiary institutions to conferences at home and abroad and a total of 9,905 lecturers in colleges of education were sponsored to participate in teaching practice supervisions.

The efficiency of the TETFund Scholarship for Academic Staff Programme was elevated with the recognition of the scholarship scheme by Top Ranking Universities across the world. This culminated into the Fund's signing Memorandum of Understanding (MoU) with several foreign universities for discounts on sponsoring scholars in their institutions.

To ensure the domestication and utilisation of the scientific and technological knowledge acquired by TETFund Scholars in foreign institutions, the Fund spearheaded the initiative for the establishment of National Research Laboratories to serve as centres of specialised researches in various zones of the country. This was premised on the conviction that without the essential tools for conducting

scientific researches, Nigeria's quest for technological advancement and global competitiveness would remain a mirage.

The Executive Secretary also intimated that the Board of Trustees of the Fund approved the enlistment of sixteen new

**Dr. Abdullahi Baffa Bichi**  
Executive Secretary, TETFund

beneficiary institutions in 2018 after meeting all the requirements

of enlistment, adding that it was the first time such a large number of institutions were enlisted. The institutions included Nigerian Army University, Biu; Ondo State University of Science and Technology, Okitipupa; First Technical University, Ibadan; Air Force Institute of Technology, Kaduna; Binyaminu Usman Polytechnics, Hadejia; College of

Education, Billiri, Gombe State; College of Education, Kangere, Bauchi State; College of Education, Lanlate, Oyo State; Federal Polytechnic Ukana, Akwa Ibom State; Gateway Polytechnic, Sapaade, Ogun State; Ogun State Institute of Technology, Igbesa, Ogun State; Federal Polytechnic Ile-Oluji, Ondo State; Oke-Ogun Polytechnic, Saki, Oyo State; The Ibarapa Polytechnic, Eruwa, Oyo State; University of Medical Science, Ondo State; Enugu State Polytechnic, Iwollo, Enugu State.

On standards regulation, he said that "In 2018, the Fund re-engineered the implementation of the Fund's mandate relating to improvement of quality and maintenance of standards in critical and essential areas of need by cancelling arbitrary special interventions and instituting zonal intervention, allocated equally across the geopolitical zones, as originally conceived by the TETFund Establishment Act. In the quest for continuous improvement of our services, the Fund carried out additional administrative reforms that re-aligned the operational structures and functions and created new identities with crystal clear responsibilities".

The Executive Secretary expressed appreciation to the federal government, the National Assembly, Federal Ministry of Education and other stakeholders for their respective contributions and support towards the success of the Fund.

**T**he Nigeria Air Force (NAF) has restated its commitment to joint researches with universities and research institutes in Nigeria to boost its tactical operations.

NAF had signed a Memorandum of Understanding (MoU) with 14 universities and five research institutes in the country in 2013 on capacity building and other mutual collaboration.

A delegation from the force headquarters, Abuja, led by the Chief of Standard and Evaluation, Air Vice Marshall (AVM) John Kwasu Baba visited the University of Lagos (UNILAG). Akoka and Covenant University (CU), Ota.

At UNILAG, AVM Baba noted that the Air Force would explore general areas and some specifics in research and technology where specific challenges were identified and needed.

He said the research collaboration would cover areas such as Electronics and Artificial Intelligence, Aircraft and Aerospace Technology, Armament Development, Aircraft Communication,

Robotics, Remote Sensing Imaging, Unmanned Vehicles Technology, Interconnected Machinery Material Science and Cryptography.

Chief of Air Staff

The UNILAG Vice-Chancellor, Prof. Oluwatoyin Ogundipe, who received the delegation expressed his pleasure at the force collaborative initiative with the institution. While assuring the force of the university's full support, Professor Ogundipe noted that the institution's Research and Innovation Office

has the capacities, resources and manpower required to commence research work on the list areas.

He said the collaboration would serve as a challenge for both the institution's academic and students to make new discoveries in diverse and key research areas.

The Vice Chancellor of Covenant University, Prof. Aaron Atayero, while receiving the delegation, commended the force for their zeal and tenacity to take the relationship in research and development to the next level.

Professor Atayero, who noted the university's competency in technology and computer science expressed its readiness to collaborate with the force on research for development in order to mitigate security challenges of the country.

The force delegation toured facilities and ongoing research projects in the faculties of engineering of the universities. They also met with the research teams of the universities respectively to map out the working procedures for the research collaboration.

## — *Buhari tells unions*

**P**resident Muhammadu Buhari has called on labour unions to allow his administration concentrate on fixing infrastructure in the country rather than distracting it by embarking on indefinite strike.

Hosting the Executive Committee of the National Association of Nigerian Students (NANS) in Presidential Villa, Buhari said his administration had tremendously improved on what it met.

"In three and a half years, we have improved tremendously on what we met. We are trying to do infrastructure. No matter which part of the country you come from, you will see the efforts we are making in terms of roads; we are trying to fix rails, we are trying to do power, through the use of gas and solar. If you note what we have done in these three and a half years, you will not regret voting this administration into power," he said.

He stated that Nigeria was doing very well in agriculture as the country was about to attain food sufficiency and security.

While calling on the students to continue to plead with the Academic Staff Union of Universities, ASUU, he assured that he will speak with the lecturers' body "so that they don't encroach on your efforts to qualify in time."

Buhari said that he had explained in details while presenting the 2019 budget estimates, the earnings and expenditure and

country belongs to all Nigerians.

"It is the responsibility of the government to look after the employed as well as the

He urged the youth to start preparing themselves to lead the country, and admonished them: "There is a tendency for you to think that you can do better than anybody, but it is very good for you to know the facts that leadership entails."

Comrade Danielson Bamidele  
NANS President

Earlier in his remarks, the NANS' president, Comrade Danielson Bamidele Akpan, requested the government to intervene in the incessant strikes in the education sector; involve more youths in governance; and look into the plight of students in different institutions who have been expelled for 'political' reasons.

### Call for Applications for Universities in Sub-Saharan Africa to host PhD Scholarships, Research and Innovation in Applied Sciences, Engineering and Technology

Opening date: 8th November 2018

Closing date: 17:00 hours East Africa Time, 17th January 2019

#### Summary

Thematic areas: (1) ICTs including big data and artificial intelligence, (2) Food Security and agribusiness, (3) Minerals, mining and materials engineering, (4) Energy including renewables, and (5) Climate change.

Eligible applicants: Universities in sub-Saharan Africa (except South Africa) that offer PhD degrees in the priority thematic areas.

Expected number of Host Universities to be selected: 4 to 6

Final selection of Host Universities: 15th March 2019

### 1. Background

The Partnership for skills in Applied Sciences, Engineering and Technology (PASET), is an initiative by African governments to address fundamental gaps in skills and knowledge necessary for long-term, sustained economic growth in sub-Saharan Africa (SSA). PASET was launched in 2013 by the governments of Senegal, Ethiopia and Rwanda, while the governments of Kenya and Ivory Coast have since joined the partnership. PASET established a Regional Scholarship and Innovation Fund (RSIF) to contribute towards the training of a critical mass of PhD and post-doctoral candidates, and support research and innovation in the following priority thematic areas: ICTs including big data and artificial intelligence; food security and agribusiness; minerals, mining and materials engineering; energy including renewables; and climate change. RSIF focuses on transformative technologies that have a far-reaching positive impact on society. It is currently funded partly by contributions from African governments, the World Bank and the Government of Korea; and implemented by the International Centre of Insect Physiology and Ecology (*icipe*) in Nairobi, Kenya, as the RSIF Regional Coordination Unit (RCU-*icipe*).

*icipe* is a non-profit organization that was established in 1970 and is headquartered in Nairobi, Kenya with country offices in Ethiopia, Uganda and Somalia. It has operations in 40 African countries and thriving partnerships with universities and research organizations, as well as regional and national media outlets across the world. *icipe*'s partners in postgraduate training are international, and since 1983 have included 43 universities in 18 African countries and 39 universities from 14 other countries around the globe.

### 2. Objective

The objective of RSIF is to train high quality PhD and post-doctoral fellows to address the human resource gap of highly qualified specialists in the fields of applied sciences, engineering, and technology (ASET) and contribute to improving research and innovation capacities in those fields in SSA. RSIF supports PhD students, post-doctoral scientists and universities in SSA to establish a high-quality training, research and innovation environment and to develop their institutional capacity for the benefit of the whole region.

### 3. Design of RSIF

RSIF is a PhD training, research and innovation initiative, which is innovatively designed to ensure long-term sustainability of funding, and to enable countries to build functional innovation ecosystems for sustainable economic growth and development.

#### RSIF has two components:

A. A General Fund, which supports PhD training, research and innovation projects annually. The General Fund supports students and universities in SSA to establish high-quality instruction and research environment and to develop institutional capacity through the following three windows:

- i. Window 1: Scholarships for PhD training: The scholarships finance 3 to 4-year PhD training programmes for citizens of SSA countries at competitively selected Host Universities in Africa. Awards include 'sandwich' training that allows students to complete part of their PhD programme at selected international partner institutions or companies. Scholars are chosen competitively with priority given to promising young African faculty without PhDs, and females.
- ii. Window 2: Grants for research: Grants are awarded competitively to faculty engaged in PhD training in Host Universities in SSA and to RSIF graduates who obtain a post-doctoral or permanent position in an academic institution or research centre in SSA.

iii. **Window 3: Innovation grants:** Innovation grants are awarded competitively to RSIF scholars and faculty who submit joint innovation project proposals with private companies. Innovation grants enable faculty and researchers to collaborate with industry and translate outputs of their research into practical uses either through existing companies or by starting up new enterprises.

B. A Permanent or Endowment Fund with proceeds channeled into the General Fund. A Fund Manager professionally and independently manages this Fund.

#### 4. Funding

The initial funding for RSIF was provided by the governments of Kenya (USD 2 million) and Rwanda (USD 2 million), followed by a six-year USD 15 million grant from the International Development Association (IDA), which is towards the design and administration costs of RSIF scholarships, research and innovation grants. The Government of South Korea is providing a USD 9 million grant that will support PhD scholarships and research grants. The governments of Cote d'Ivoire, Ethiopia and Senegal have pledged financial contributions.

#### 5. Beneficiaries of RSIF

The main beneficiaries of RSIF include:

- a. Existing young academic faculty of African universities and other young Africans who will receive PhD scholarships;
- b. Young African scientists and engineers who are entering academia, industry or business;
- c. African institutions that train PhD students and become internationally recognized in applied sciences, engineering and technology fields;
- d. Faculty and students of the African institutions hosting or hiring RSIF scholars who benefit from the improved quality and capacity of the institutions;
- e. Industries that can employ better graduates, increase innovation capacity and use transformative technologies;
- f. Society, which will benefit from the use of transformative technologies.

#### 6. RSIF expected results by 2024

The following results are expected by 2024 with the current level of funding:

- a. The RSIF to grow to at least USD 65 million;
- b. A minimum of 10 networks between SSA Host Universities and international partners for PhD training and research collaboration implemented;
- c. At least 120 students/staff to take cross-cutting courses, entrepreneurship or research commercialization courses supported;
- d. At least 96 PhD scholars (36 female) supported;
- e. A minimum of 35 research papers submitted by staff members or scholars sponsored by the project for publication in internationally indexed journals (10 female authors or co-authors);
- f. At least five pipeline innovative products and transformative technologies through links with the private sector developed.

#### 7. RSIF Host Universities

The RSIF Host Universities are universities or research institutes/centres based in SSA that offer a PhD program in any one of the priority ASET thematic areas of ICTs including big data and artificial intelligence, food security and agribusiness, minerals, mining and materials engineering, energy including renewables, and climate change. They host the PhD scholars, and also receive research grants and grants for innovation projects in the selected thematic area. Host Universities are selected competitively by an independent international panel of experts, and endorsed by the PASET/RSIF Governing Bodies. The first cohort of RSIF Host Universities comprise: African University of Science and Technology, Nigeria; Sokoine University of Agriculture, Tanzania; University of Gaston Berger, Senegal; and the

## 8. Benefits of becoming a Host University

Host Universities have the opportunity to train PhD students that are supported by RSIF scholarships, and can benefit through the research grant and innovation grant windows of the RSIF. Host Universities also gain access to institutional capacity building opportunities for graduate program management, research management, ICT, curriculum design, faculty training, and innovation hub development. Hosts can also benefit from international collaboration and partnership opportunities with world-class institutions and universities outside the region to improve curricula, teaching and research methods, develop joint R&D and innovation projects, and arrange exchange visits. Through the RSIF, Host Universities gain world-wide recognition as premier institutions for PhD programs in any one of the ASET priority thematic area, as a result of having been selected through a highly competitive process.

## 9. Eligibility

Universities or research institutes/centres in sub-Saharan Africa (except South Africa<sup>1</sup>) with at least one PhD degree program in any of the ASET priority thematic areas of ICTs including big data and artificial intelligence; food security and agribusiness; minerals, mining and materials engineering; energy including renewables; and climate change.

## 10. How to apply

10.1 Use the RSIF Host University Application Form provided at <http://www.icipe.org/sites/default/files/english-rsif-host-university-application-form.docx>

10.2 Complete the application and submit together with the required supporting documents (see below) via the online system at [http://cbid.icipe.org/apps/cbid/forms/rsif\\_application.php](http://cbid.icipe.org/apps/cbid/forms/rsif_application.php)

The online system will accept the following file types doc, docx, pdf, rtf, zip, rar, jpg, jpeg, png, bmp, tif. The maximum file size accepted for any single file is 5 MB.

The deadline for receiving applications is Thursday, 17<sup>th</sup> January 2019, no later than 17:00 hours East Africa Time. Access to the online submission platform will be closed after the deadline.

Note: A university may make up to 5 separate applications, each in any one of the priority ASET thematic areas. However, a university will only qualify to be selected for one priority thematic area. Each application will be judged independently.

<sup>1</sup> Universities in South Africa are eligible to participate in RSIF as Partner Organizations. The latter are expected to contribute towards the strengthening of Host Universities.

### 10.3 Conditions for application

By submitting the application, the applicant agrees to the following:

- Comply with all rules for participating in this call
- RCU-*icipe* reserves the right to reject applications that fail to meet the eligibility and selection requirements.
- All decisions made by RCU-*icipe* with approval by the PASET Executive Board (EB) are final.

### 11. Selection criteria

The selection of Host Universities will be based on merit, and considers the potential of the university to grow and become a centre of excellence in the ASET priority thematic areas.

Applications for Host Universities will be evaluated based on the following key criteria (see Annex 1 for detailed criteria and scores):

- Educational and research capacity (40 marks)
- Institutional capacity (20 marks)
- Proposed PhD program impact (20 marks)
- National, regional and international partnerships (10 marks)
- Potential to raise the quality and relevance of the proposed PhD program, research and innovation (10 marks)

5	Site visit to shortlisted Host Universities	8 <sup>th</sup> March 2019
6	Final selection of Host Universities	15 <sup>th</sup> March 2019
7	Negotiations and signing MoUs and hosting agreements	22 <sup>nd</sup> March 2019

### 12. Selection process

Step 1. Screening and evaluation at RSIF RCU

The RCU receives the applications and screens them for eligibility and completeness. Applications that pass the eligibility screening and completeness check are sent to an Independent Evaluation Committee (IEC) of 5 to 7 experts, appointed by the RCU.

Step 3. Evaluation by the IEC

Applications are evaluated by the IEC, ranked and shortlisted for interview. Shortlisted universities are invited for a virtual interview by the IEC. Interviews will be conducted in either French or English, depending on the university's language preference.

Step 3. Site visits

After the interviews, the IEC will discuss and recommend qualifying Host Universities to the RCU-*icipe*. The IEC and RCU-*icipe* will visit the recommended Host Universities. The IEC's final recommendations, incorporating the outcome of the site visits will be shared with the PASET Executive Board (EB) for their endorsement.

Step 4. Negotiations and signing MoUs and contracts.

After the PASET EB endorsement, the selected Host Universities will be announced on the RSIF website. The selected Host Universities will be invited to negotiate hosting arrangements with RCU-*icipe*. *icipe* as the RCU will then sign memoranda of understanding and hosting agreements with the selected Host Universities based on the outcome of the negotiations. Unsuccessful universities will also be notified by email.

### COMMUNIQUE OF THE TWENTIETH NIGERIAN ACADEMY OF LETTERS (NAL) CONVOCATION, SCIENTIFIC SESSION AND INVESTITURE OF NEW FELLOWS HELD AT THE UNIVERSITY OF LAGOS ON THURSDAY, 9 AUGUST, 2018.

#### PREAMBLE

The Nigerian Academy of Letters (NAL), an autonomous and non-political body of scholars in the humanities, held its 20th Convocation, Scientific Session and Investiture of New Fellows on Thursday, 9 August, 2018, at the J.F. Ade-Ajayi Auditorium, University of Lagos, with the theme "Plural Loyalties in a Modernising State".

In attendance were 112 professors from different Nigerian and overseas universities. The president of the Nigerian Academy of Letters (NAL), Professor Olu Obafemi, *fsonta, fesan*, FNAL, presided over the convocation and the investiture of new fellows, while the vice president, Professor Francis Egbokhare, FNAL, who succeeded Professor Olu Obafemi as president, presided over the scientific session. Twenty-eight new members were inducted and four new regular fellows (Professors Raufu Adebisi, Olutayo Charles Adesina, Isaac Deji Ayegboyin, and Godwin, Sogolo) were admitted into the NAL College of Fellows. Also, in attendance were key dignitaries from home and abroad. The honourable minister of education was represented at the scientific session.

The convocation lecture which was entitled "Plural. Loyalties and Multiple Identities in Post independence Nigeria" was delivered by Professor: Siyan Oyeweso, FNAL, a professor of history at the Osun State University and substantive director of the Centre for Black Culture and International Understanding, Osogbo, Osun State.

Executive Committee: Professor Olu Obafemi - President, Professor Francis Egbokhare - Vice President, Professor B. Olatunji Oloruntimehin - Immediate Past President (IPP), Professor Emeritus Ayo Bamgbose (Foundation President), Professor Emeritus Ayo Banjo, Professor Emeritus M. Munzali Jibril, Professor Emeritus Ben Elugbe, Professor Dan Izevbaye, Professor Umaru B. Ahmed, Professor Emeritus Ben O. Oloyede, Professor Sunday Ododo, Prof. Olutayo C. Adesina - Secretary, Professor Olatunji Oyeshile - Treasurer, Professor Adesanoye - General Editor, Professor Maduabuchi Dukor - Assistant Secretary, Professor Unionmwan Edebiri - Honorary Solicitor, Professor B. Rotimi Badejo - Newsletter Editor

Two well-researched papers on the theme of the convocation were presented at the scientific session by Professor Andrew Haruna, Vice Chancellor, Federal University, Gashua, Yobe State; and Professor Afis Oladosu, Department of Arabic and Islamic Studies, University of Ibadan.

## OBSERVATIONS

In the course of these presentations, issues that should engage the attention of Nigerians, most notably, the National Assembly and the Federal Executive Council, were discussed. The following specific observations were made:

1. The need for concerted efforts in nation-building is inevitable in an African post-colonial state such as Nigeria.
2. Nigeria's inability to rise above religious, ethnic, and other sentiments since her independence is worrisome and is worthy of intellectual examination and re-examination.
3. There is a worrying normalisation of deviance and impunity in our polity and national life.
4. The recent litany of massacres in Nigeria and its handling by the federal government are disturbing. It is apparent that Nigeria is witnessing socioeconomic and political travails and her national harmony has never been more bedevilled with agitations and frightening descent into dystopia and anomie than in this present decade.
5. Nigeria's corporate existence, like that of any modern state, is subject to negotiation in a rational way (and such remains the inalienable right of Nigerians).
6. Nigerians of all professions and ethnic groups have a stake in the development of the country, and are entitled to its dividends. Thus, they must be allowed to contribute to her evolving political and cultural frameworks.
7. A nation achieves unity not through dictatorship, infringement on citizens' rights or brute force but by negotiation and respect for the humanity of its citizens.
8. There is an urgent need to rediscover our sense of humanity and fraternity with a view to preserving the dignity of the Nigerian life.
9. Pluralism and diversity in languages in modernising states, such as Nigeria, are not in themselves the problem but the cultural/political uses to which the citizens put such languages. Therefore, the tendency or posture to disempower small population languages and their speakers is against Nigeria's pluralism and linguistic human rights, and retards human capital.
10. The political elite have continued to act with utter disregard for the citizenry and in defiance of public opinion.
11. The present structure of Nigeria is impeding her political and economic growth; in the main, it

is disintegrating the citizens' efforts at instituting a collective identity and maintaining peaceful coexistence.

## RECOMMENDATIONS

In view of the above observations, the following recommendations were made:

1. Concerted efforts should be made by intellectuals as well as the political class to rigorously critique the state, essence and nature of Nigeria's political life.
2. As Nigeria continues its march to modernity, the Nigerian state should consciously patronise and nurture programmes that would assist in deploying the nation's diversity as a source of strength, not weakness, at the national level.
3. Being cognizant of the fundamentality of loyalty as an indispensable element for state prosperity, NAL calls on the government at the centre to improve on its welfare programmes for the citizenry as it is the first precedent to the prevention of disloyalty. Such welfare programmes would equally prevent the emergence of non-state violent actors, such as Boko Haram, that feed on citizens' disillusionment with the state in perpetrating atrocities and brigandage.
4. The academic sector needs to be empowered through research funding opportunities to be able to examine issues on nationhood fairly and deeply.
5. Academics in the country need to discard their biases and examine national issues impartially to be able to make meaningful contributions to national development.
6. Nigerians must reinvent political parties; that is, our political elite must establish political parties that prioritise politics of ideas, ideologies and, sustainable growth and development.
7. The leadership and political elite should respect public opinions.
8. The nation should prioritise constitutional order and humane values.
9. A negotiated restructuring of the country,' which does not amount to dissolution of the federation, is long overdue. It is pertinent to dialogue dispassionately on national issues because nation-building is a collective affair.

## CALL FOR EXPRESSION OF INTEREST FOR CANCER CLINICAL TRIALS

The National Universities Commission has received a call notification from BIO Venture for Global Health (BVGH) under the aegis of the African Access Initiative (AAI), for expression of interest in conducting cancer clinical trials (feasibility studies) in Sub-Saharan Africa.

Developed and led by BVGH, the African Access Initiative is a partnership of companies, governments, healthcare providers and non-profit organisations focused on addressing Africa growing cancer crisis by sustainably expanding access to cancer medicines and technologies, improving healthcare infrastructure and building clinical as well as Research and Development (R &D) capacity.

BVGH launched the African Consortium for Cancer Clinical Trial (AC3T) to foster and implement cancer clinical trials led by investigators in Africa. The project is designed to build clinical and trial capacity as well as address the cancer data gap in Africa, while increasing access to prioritised cancer diagnostics, medicines and quality treatment for African cancer patients.

AC3T will be implemented across three primary initiatives that will be conducted in parallel thus:

i. Investigator-initiated, cancer feasibility studies will be conducted with funding from AC3T study pool.

ii. Cancer clinical research capabilities will be built and augmented at participating AAI hospitals.

iii. Hospitals' cancer clinical trial capabilities will be profiled to encourage pharmaceutical and biotechnology companies to conduct cancer clinical trials at those hospitals.

Interested researchers should ensure that the studies proposal MUST meet the following criteria:

i. Conducted in Africa by an Africa-based investigator or with an Africa-based partner

ii. Focus on one or more of the most common cancers in African populations

iii. Aimed at improving African cancer patients' health outcomes

iv. Tuition fees and training materials;

For more information, interested researchers should visit:

## ADVERTORIAL

### NUC MAKES HISTORY IN RANKING OF OPEN EDUCATIONAL RESOURCES (OER)

The National Universities Commission has made history in conducting the first-ever ranking of Open Educational Resources (OER) held in institutional repositories. It is the first exercise of its kind in the world and it was initiated by the Executive Secretary of NUC, Professor Abubakar Rasheed, mni, MFR for application in the Nigerian University System. The exercise showed that with 12,070 quality OER holdings presented by 50 universities for the inaugural exercise, Nigerian Universities are now among the best in Africa in OER. It is estimated that with full release of the OER holdings and participation by all universities, this number may quadruple in the next two years making the Nigerian University system the richest in OER in Africa. The OER ranking exercise is to be conducted twice a year.

Open Educational Resources (OER) are teaching, learning and research materials in any medium, digital or otherwise, that reside in the public domain or have been released under an open license that permits no-cost access, use, adapt and redistribute by others with no or limited restrictions. They are technology-enabled, open provision of educational resources for consultation, use and adaptation by a community of users for non-commercial purposes. Materials that constitute OER include curriculum maps, course materials, textbooks, streaming videos, pictorial materials, multimedia applications, podcast, and any other materials that have been designed for use in teaching and learning environment.

The OER ranking exercise was conducted by the 12-member National Experts Group on OER Ranking (NEGOR) and a four-person team of external experts from outside Nigeria.

Fifty universities that participated in the inaugural edition were ranked by (a) ownership (federal, State and private) and (b) generation within ownership. The results are shown below.

The attention of the Management of the Tertiary Education Trust Fund (TETFund) is drawn to the mischievous activities of some unscrupulous elements that are visiting public Universities, Polytechnics and Colleges of Education and some regulatory agencies and presenting themselves as staff of, and working with, the Chairman-designate of the Board of Trustees of TETFund. They usually meet the head of an institution, the bursar and/or director of works/physical planning to make all sort of offers/promises of TETFund intervention projects to be allegedly brought to the institution by the Chairman-designate. In exchange, they make different frivolous requests including nominating contractors/consultants and, in many cases, request for financial gratifications.

The Management of the Fund therefore wishes to inform the beneficiary institutions of TETFund in particular and entire public in general that these mischief-makers have nothing to do with TETFund and all their entreaties should be ignored. Anyone that enters into any transaction with them does so at his/her own risk.

All TETFund Staff on official assignment to any institution carry identification and an introduction letter to the head of the institution.

Heads of our beneficiary institutions or members of the public who require any clarification on the activities of the Fund may also call **0800-TETFUND (0800-8383863)** or visit our website [www.tetfund.gov.ng](http://www.tetfund.gov.ng).

## NATIONAL UNIVERSITIES COMMISSION

### RE: MORATORIUM ON PART-TIME PROGRAMMES

The National Universities Commission, cognizant of the need to streamline the operations of Part-Time and Sandwich programmes in Nigerian universities, had through a publication in the print media, including the Guardian and Sun Newspapers of Monday, 19th March, 2012, placed a moratorium on admission into Part-Time programmes in Nigerian universities. In the publication, the universities were requested to fully disclose all Part-Time and Sandwich programmes, with respect to enrolment and staffing profile, within four weeks of the publication, and to conduct in-house staff and student audit and forward same to the Commission. As a follow up to this, the Commission vide a letter dated 14 January, 2013, sent a reminder to the universities requesting those that were yet to provide information on their Part-Time and Sandwich programmes as well as affiliation arrangements to do so on or before 15 February, 2013.

#### 2.0. Universities That Made Submission

Based on the submissions received, a total of forty (40) universities indicated that they would run Part-Time and Sandwich programmes as detailed below:

**GUIDELINES ON PART-TIME AND SANDWICH PROGRAMMES IN NIGERIAN UNIVERSITIES**

Below are guidelines for conducting Part-time and Sandwich programmes in Nigerian universities. All universities currently operating Part-time programmes are expected to comply with the guidelines on programme by programme basis.

Consequently, universities still interested in running Part-time programmes are advised to forward fresh applications to the NUC on programme by programme basis.

This is, however, subject to the readiness of the university to comply with the following extant guidelines on part-time programmes:

1. The admission and graduation requirements, Staffing, Library and physical facilities requirements must be in line with the Benchmark Minimum Academic Standards (BMAS) for the various full-time academic programmes;
2. For a programme to be eligible to run on part-time basis, the approved full-time equivalent must be available in the university, must have earned full accreditation and must be run within approved campuses;
3. The enrolment into part-time programmes must not exceed 20% of total students' population in the programme;
4. The minimum duration of the part-time programmes must be 150% of the approved duration of the Full-Time equivalent;
5. Approval shall not be granted for part-time programmes in Environmental Sciences, Engineering/Technology, Law, Medicine/Medical Sciences, Pharmacy /Pharmaceutical Sciences, Dentistry; and Veterinary Science;
6. All admissions into part-time programmes must be through the Joint Admissions and Matriculation Board (JAMB). Part-time programmes must be run within approved campuses of universities where the human and material resources for the teaching of the programmes are domiciled, i.e. on the main campus of the university;
7. Part-time programmes shall be subjected to the NUC accreditation assessment upon maturity of the programme;
8. For any programme to be eligible for part-time mode, it must have produced two (2) sets of graduates and satisfied the Resource Verification Requirements.
9. Commencement of a part-time programme MUST be subject to NUC's approval. Approval of commencement of all parttime programmes must be obtained.

The National Universities Commission shall not hesitate to apply appropriate sanctions on any university which violates any of the stipulated Guidelines on Part-Time and Sandwich Programmes.

## List of Universities with Approved Postgraduate Programmes

The National Universities Commission (NUC) has observed with great concern that some Nigerian universities are running unapproved postgraduate programmes, leading to the award of Masters and PhD degrees. The Commission has also observed that some Parastatals and Institutes are awarding these same Postgraduate degrees, either on their own or through unapproved affiliations with Nigerian and foreign Universities. Such practices are not only unethical, but also antithetical to time-tested quality assurance best practices. The qualifications/awards resulting therefrom are not recognized. The Commission hereby notifies the general public that only the following universities have approval to offer postgraduate programmes at the Masters' and Ph.D levels in Nigeria, as of 30th July, 2012:

### Federal Universities :
