

## Politics of Exclusion Extended to the University Is Insanity — Prof. Rasheed

The Executive Secretary, National Universities Commission (NUC), Professor Abubakar Adamu Rasheed, Mni, MFR, FNAL, has advised university-based associations not to extend politics of exclusion into the Nigerian University System (NUS).

He said when he received the Executives of Physiological Society of Nigeria (PSN) that the argument on who should head the Medical Colleges and other medical institutions as well as deaneries had lingered for a long time.

He described the position of the Medical and Dental Council of Nigeria (MDCN) on issues of governance and management of all medical entities untenable and advised the PSN to forge alliance with the different bodies in the

medical discipline and engage in meaningful discussions on peaceful ways to resolve the thorny issues.

teaching/learning and staff morale in universities and the PSN far compelled to bring to NUC's attention the various challenges faced by Physiologists.

The Chairman, put forward the following requests to the NUC for consideration: (i) A proposed new

directives to Vice-Chancellors from the MDCN as well as undue interference by Professional Bodies in University Teaching and Administration.

According to Prof Ebeigbe, PSN had developed and was therefore proposing a new curriculum for the

programme to five years, to accommodate the Students Industrial Work Experience Scheme (SIWES) as well as training in specialized areas of Physiology which include: Exercise and Sports Physiology, Aviation and Aerospace Physiology, Physiology and Biophysics, Environmental and

undergraduate B.Sc. Physiology curriculum developed by the PSN; (ii) harmonization of physiology career entry and progression in faculties of Basic Medical Sciences in Nigeria institutions; (iii)

recurrent rift between Physiology Lecturers who possess MBBS and those who possess Science Physiology degrees; and (v) strategies for resolution and

undergraduate (B.Sc. Physiology) programme for Nigerian universities.

This new curriculum, he stressed, if implemented, would empower the next generation of physiology graduates with capacity to be key players in national development.

He said that the main feature of the new curriculum would be an extension of the duration of the

Marine Physiology as well as clinical Physiology.

He argued that the proposed curriculum has sufficient breath not just to prepare students for Teaching and Research but also to equip them with useful transferrable skills to take to other walks of life.

The Chairman lamented over the disparity that exists between the two categories of Physiology Lecturers;

those who are medically qualified (medics) and those who possess B.Sc. Physiology degree (non-medics).

He said that holders of Bachelor of Medicine, Bachelor of Surgery and Bachelor of Dental Surgery (MBBS/BDS), with no postgraduate qualification or physiology teaching experience

Prof. Ebeigbe noted with concern a letter written by MDCN and addressed to all Vice-chancellors directing that only appropriately trained medically qualified teachers should be employed to teach Medical/Dental students in all departments and MDCN also threatened to withdraw accreditation from institutions that fail to comply.

intriguing that a body that was supposed to regulate professional practice had decided to meddle into purely academic issues which were entirely the prerogative of senate of universities and the NUC.

He stated that it was now common practice for Professional bodies such as MDCN to arrogate to itself the power to regulate Teaching and

continued to be appointed as Lecturer II in many universities.

This he said was without doubt an anomaly that equated the first degree (MBBS/BDS) to a PhD degree, noting that no such could be found globally and proposed that holders of B.Sc. and M.Sc. Physiology degree should rightly be appointed as Lecturer II and the B.Sc.+M.Sc.+ Ph.D. degree holder as Lecturer I.

He said that “PSN consider this directive by MDCN highly detrimental to the growth of Nigeria's healthcare system as it will deny the Medical/Dental students access to the expertise of basic scientists, thereby reducing the competence and competitiveness of Nigeria's medical doctors globally.”

He reiterated that it was rather

Administration in Nigerian universities.

Prof. Ebeigbe said it was absurd enough for MDCN to maintain that a non-medical Professor of Physiology should not become a Provost of the College of Medical Sciences, with its current campaign against non-medics. He said that the MDCN might in the very nearest future also insist that a non-medical could not be

Head in a Department of Physiology.

The Chairman then asserted that a good number of physiologist in the Diaspora as well as International Physiological Associations who were aware of the MDCN's intrusions had expressed great disappointment and condemned their (MDCN's) directives in the strongest possible terms, describing the directives as most unfortunate, ill-informed and retrogressive.

He thereby presented the following action points by PSN for NUC's "consideration and possible adoption:" Incorporation of the new PSN curriculum into the BMAS for undergraduate

physiology training; provision of a categorical position that rejects the 2014 MDCN directive to Vice-Chancellors and compels MDCN and other professional bodies to concentrate on their mandate to regulate professional practice rather than meddling into academic training and administration of universities; ensuring that universities were adequately enlightened about best practices in Medical Education and Training that emphasized team work rather than the narrow view of the MDCN which required that medical students be taught by only Medical Doctors and finally, to involve trained specialist scientist physiologist in future stakeholders discussion on issues concerning biomedical education and training

as well as policy formulation.

In the PSN delegation were the President, Prof. Arthur Chuemere; first Vice-President, Prof. Ibiyemi Olatunji Bello; Editor-in-Chief of its Newsletter, Prof. A.R.A Alada; Secretary General, Prof. Eghosa Iyare; Deputy Editor-in-Chief, Prof. S. Present at the meeting were NUC's Deputy Executive Secretary, Academics, Dr. Ramon Yusuf; Director, Directorate of Corporate Communication, Ibrahim Yakasai and Deputy Director, Information, Haruna Lawal Ajo.

## JAMB appoints Jega to Head Internalisation, Admission committee

The Registrar of the Joint Admissions and Matriculation Board (JAMB), Professor Is-haq Oloyede has inaugurated a committee on the Internalisation of Admission into Tertiary Institutions in Nigeria, to be chaired by a former Chairman of the Independent National Electoral Commission, Prof Attahiru Jega.

Prof. Oloyede said the committee's duty was to put in place the machinery to attract foreign students into Nigerian tertiary institutions, starting

from the 2019/2020 academic session.

Prof. Is-haq Oloyede  
Registrar, JAMB

He gave names of members of the committee to include a former Vice-Chancellor of the National Open University of Nigeria, Prof Olugbemi Jegede, and a former Vice-Chancellor of the Federal University of Agriculture, Abeokuta, Prof Olushola Oyewole and seven others.

The Jega-led admission committee would come up with strategies on international admissions, partnerships and academic programmes, as well as the promotion of foreign language programmes.

According to the JAMB Bulletin, the committee was conceived during the 2019 Conference of Vice-Chancellors, Rectors and Presidents of African Universities in Egypt in July.

“The Registrar emphasised that setting up the committee had become necessary in view of the prevailing localisation of tertiary institutions in the country.

The committee would come up with strategies on how to support tertiary institutions, particularly foreign candidates into the

universities to attract Nigerian education institutions.

**Prof. Attahiru Jega**

Other terms of reference of the committee included suggesting

veritable means through which the foreign centres of JAMB should be deployed to attract more candidates, especially Nigerians in the diaspora, to apply for admission into Nigerian universities.”

In his response while accepting the onerous responsibility, the former INEC Chairman said, “I have gone through the terms of reference underscoring the intention of the board to internationalise the nation's universities. If this is achieved, it will improve the rating of our universities.”

## NUC Advocates Triple Helix

The National Universities Commission (NUC), Abuja, has advocated the Triple Helix Model of relationship between the academia, industry and the Federal Government that will successfully refocus university education for creativity and nation-building.

The Deputy Executive Secretary (DES) of the NUC, Suleiman Ramon-Yusuf, said in a public lecture titled, Refocusing the Nigerian Universities System for Creativity and Nation-building, at the maiden Matriculation of the Trinity University, in Lagos that if all critical stakeholders could come together to fill the identified gaps in the quality of input in universities' programmes, the

discharge of the teaching-learning, research and community engagement would move the nation towards

industry and government within the structure of commonality of interests”.

The Deputy Scribe said that the Commission encouraged the participation of the private sector in university curriculum reviews to ensure that graduates were fit for purpose instead of standing aloof and condemning the products of universities.

He further stated the need for an appropriate window for universities under the coordination of TETFund to address industry-focused research based on specific sector requirements that would promote the competitiveness of the Nigeria industry.

He advised the universities and industries to collaborate in creating new products and advance new frontiers of innovations.

The NUC and the Nigerian Economic Summit Group, according to him, had agreed to collaborate on enabling knowledge exchange

engagements between the academia and industry to allow industry leaders serve as adjunct lecturers in the universities, while university lecturers could utilise their sabbatical to work in the industry.

**Dr. Suleiman Ramon Yusuf**  
DES, Academic

Dr. Yusuf called on the government and the National Assembly to enact enabling laws that would create the Triple Helix Model to institutionalise the academia, industry and government collaboration

framework to support the venture for national development.

He urged the Nigerian universities to embark on strategic capacity building to bring academics up-to-date with new trends in their respective subject areas in order to achieve the desired impact.

In his earlier remarks, the Vice-Chancellor of Trinity University, Prof Charles Ayo, thanked the NUC for the usual support during the process for the establishment of the university and it take off.

He pledged that the University Council, Management Staff and Students would live up to expectations and strive to make the nation proud.

He added that the school's mission was to equip the students with knowledge, skills, and values through quality teaching, learning and research to create effective change agents and value-adding members of the society.

## Research Determines Quality of Life

— *NCC boss presents grants to 10 Varsities*

The Executive Vice-Chairman and Chief Executive (EVC/CE), Nigerian Communications Commission (NCC), Professor Umar Danbatta, has stated that “the quality of life in a society is determined by the quality of research especially by Universities.”

Professor Danbatta made the declaration at the presentation of award letters to academics with

successful proposals for the NCC 2018 Research Grants held at the Conference Room of the NCC Headquarters, Abuja.

He said that though the initiative was part of NCC mandate, the role of the academia in the programme was in line with globally-recognised community service, which was the hallmark of education institutional culture.

He also expressed delight that being at the intersection of Telecom Engineering scholarship and Telecommunication Industry, he was impressed by the increasing collaboration and partnership between the academia and telecommunication industry in Nigeria.

He noted that the academia provided knowledge resource and research results that governed transformational growth and facilitates innovations in industries worldwide. He said that collectively, the academia imparted the youth and general populace with resources of knowledge required to qualitatively transform their lives through ground-breaking ideas that had revolutionised and reshaped the world.

The EVC further reminded the recipients and their respective universities of the terms and conditions of the grants, appealing on the need to abide by the rules. He also cautioned: that under no any circumstance were they expected to showcase their works or the prototypes to anybody, organisation or exhibition until the Commission had received and signed the final prototype.

He was optimistic that the prototype that would evolve from the collaboration would be beneficial to Nigerian telecommunication industry.

In his remarks, the chairman of Inter-Agency Committee that assessed the proposals,, Professor Bashir Muazu, said that by the initiative, NCC had thrown a challenge to the academic community in Nigeria.

He recalled that 63 proposals were received but only 11 met all the criteria set out to evaluate the submissions. He called on the recipients to abide by the rules of engagement as he commended

He said that the recipients and Nigerian academic community were encouraged by NCC's vision, promising that they would keep to the rules and deliver within stipulated time what would be beneficial to Nigeria and the global community.

Also speaking, NCC Director of Research and Development Ephraim Nwokonneya, recalled the journey of NCC Research Grant Project and other similar initiatives of the Commission noting that few weeks ago, some

I am directed to inform that the Economic Community of West African States (ECOWAS) Commission is launching the first edition of the Research and Innovation Support Programme (PARI), which is a competitive programme that promotes scientific excellence. The Programme would select the two best research projects submitted within the region with the following specific objectives:

- xvii. Financing research on a competitive basis of call for application of research projects contributing to the fight against poverty and having an impact on the development of the region;
- xviii. Promote the mobility of researchers through the development of regional projects;
- xix. Support research laboratories to strengthen their capacities (equipment and connectivity) and access to scientific information; and
- xx. Build the capacity of young researchers to ensure the next generation of scientist of the research institutes within the region.

2. The PARI is also requesting researchers to propose research projects involving other ECOWAS linguistic zone in order to contribute to regional integration of researchers.

**GUIDELINES ON PART-TIME AND SANDWICH PROGRAMMES IN NIGERIAN UNIVERSITIES**

Below are guidelines for conducting Part-time and Sandwich programmes in Nigerian universities. All universities currently operating Part-time programmes are expected to comply with the guidelines on programme by programme basis.

Consequently, universities still interested in running Part-time programmes are advised to forward fresh applications to the NUC on programme by programme basis.

This is, however, subject to the readiness of the university to comply with the following extant guidelines on part-time programmes:

1. The admission and graduation requirements, Staffing, Library and physical facilities requirements must be in line with the Benchmark Minimum Academic Standards (BMAS) for the various full-time academic programmes;
2. For a programme to be eligible to run on part-time basis, the approved full-time equivalent must be available in the university, must have earned full accreditation and must be run within approved campuses;
3. The enrolment into part-time programmes must not exceed 20% of total students' population in the programme;
4. The minimum duration of the part-time programmes must be 150% of the approved duration of the Full-Time equivalent;
5. Approval shall not be granted for part-time programmes in Environmental Sciences, Engineering/Technology, Law, Medicine/Medical Sciences, Pharmacy /Pharmaceutical Sciences, Dentistry; and Veterinary Science;
6. All admissions into part-time programmes must be through the Joint Admissions and Matriculation Board (JAMB). Part-time programmes must be run within approved campuses of universities where the human and material resources for the teaching of the programmes are domiciled, i.e. on the main campus of the university;
7. Part-time programmes shall be subjected to the NUC accreditation assessment upon maturity of the programme;
8. For any programme to be eligible for part-time mode, it must have produced two (2) sets of graduates and satisfied the Resource Verification Requirements.
9. Commencement of a part-time programme MUST be subject to NUC's approval. Approval of commencement of all parttime programmes must be obtained.

The National Universities Commission shall not hesitate to apply appropriate sanctions on any university which violates any of the stipulated Guidelines on Part-Time and Sandwich Programmes.

## List of Universities with Approved Postgraduate Programmes

The National Universities Commission (NUC) has observed with great concern that some Nigerian universities are running unapproved postgraduate programmes, leading to the award of Masters and PhD degrees. The Commission has also observed that some Parastatals and Institutes are awarding these same Postgraduate degrees, either on their own or through unapproved affiliations with Nigerian and foreign Universities. Such practices are not only unethical, but also antithetical to time-tested quality assurance best practices. The qualifications/awards resulting therefrom are not recognized. The Commission hereby notifies the general public that only the following universities have approval to offer postgraduate programmes at the Masters' and Ph.D levels in Nigeria, as of 30th July, 2012:

### Federal Universities :
